COMMENTS:

On August 23, 2017, an annual Routine Operations inspection was conducted at this facility for the Waste-to-Energy Resource Recover, C&D Materials Recovery Facility, SOPF processing and Waste Tire Collector permitted units. Each unit was actively operating during this evaluation.

SOPF Storage/Processing - This area was processing yard wastes for mulch (40% of volume of waste stream) and composting preparation (60% volume of waste stream) at the compost processing facility, Lee-Hendry Solid Waste facility. During the winter season, 100% of processed yard wastes goes to composting at Lee-Hendry. No issues or concerns were noted in this unit area during the evaluation.

Waste Tire Collection - Approximately 1,000 waste tires were on site at the time of the evaluation, No issues or concerns were noted in this unit area during this evaluation.

C&D Materials Recovery - This unit was receiving C&D wastes which was being put directly into the recovery process. No issues or concerns noted in this unit area at time of evaluation.

Waste to Energy Facility - No concerns or issues noted during inspection.

Overall status of the Lee County Resource Recovery Facility - In compliance at the time of the annual inspection for each permitted unit.
