Environmental Protection
Inspection Checklist**

FACILITY INFORMATION:

Facility Name: SARASOTA CENTRAL LANDFILL COMPLEX
On-Site Inspection Start Date: 02/28/2018
On-Site Inspection End Date: 02/28/2018
WACS No.: 51614
Facility Street Address: 4000 KNIGHTS TRAIL ROAD
City: NOKOMIS
County Name: SARASOTA
Zip: 34275

INSPECTION PARTICIPANTS:

(Include ALL Landfill and Department Personnel with Corresponding Titles)

Principal Inspector: Rick R Roudebush, Environmental Specialist
Other Participants: Lois Rose, Manager, Solid Waste Operations

INSPECTION TYPE:

Routine Operation Inspection for WPF - Source-Separated Organics Proc Fac (SOPF)

ATTACHMENTS TO THE INSPECTION CHECKLIST:

This Cover Page to the Inspection Checklist may include any or all of the following attachments as appropriate.

Note: Checklist items with shaded boxes are for informational purposes only.

Inspection Date: 02/28/2018

10.0 - SECTION 10.0 - REGISTERED SOURCE-SEPARATED ORGANICS PROCESSING FACILITIES

Requirements:

The requirements listed in this section provide an opportunity for the Department's inspector to indicate the conditions found at the time of the inspection. A "Not Ok" response to a requirement indicates either a potential violation of the corresponding rule or an area of concern that requires more attention. Both potential violations and areas of concern are discussed further at the end of this inspection report.

Current Areas Of Concern:

Rule: 62-709.320(2)(e)1.

Question Number: 10.16.1

Explanation: The organic materials on pad one where the fire occurred on February 25, 2018 was not processed within 6 months of being received at the facility. This is based on dated facility aerial photographs and according to facility personnel.

Corrective Action: The facility stated that the materials on pad one will be processed once all hot spots and potential fire flare up areas have been addressed. On May 21, 2018, the facility verified that all organic materials had been processed and the facility has returned to compliance.

COMMENTS:

On Sunday February 25, 2018, a fire was reported in the separated source organic staging and processing area of the facility. It was immediately reported to FDEP. On Wednesday February 28, 2018, a follow up site inspection was conducted.

The cause of the fire is unknown. The facility believes it was an external ignition source, as opposed to spontaneous combustion. The fire started on the outer corner of the northern most windrow on pad one. The facility extinguished the fire by isolating the burning area of the windrow and covering it with dirt.

During the inspection, the operator indicated the organic materials on the pad were left from the previous subcontractor that processed the organic materials in June 2017. This material should have been size reduced within 6 months. On May 21, 2018 the facility verified that the organic materials have been sized reduced, returning the facility to compliance.
