COMMENTS:

On September 11, 2018 routine inspections of the Baker Landfill, Baker Transfer Station and the Yard Trash Processing Facility were conducted. The closed landfill appears to be maintained as required. The Transfer Station appears to be operated as required (Neal Brickner participated in the Transfer Station inspection with me). The Yard Trash Processing Facility appears to be operated as required. Concerning the groundwater, the facility has an active remediation system to address the constituents of concern. Performance of the remediation system is evaluated and addressed by the Department's Cleanup Section. Please continue remediation activities as required.
