COMMENTS:

A Routine Operations Inspection was conducted at this facility. Garden Street Iron & Metal is a full service scrap metal recycling and tire processing operation. Used tires received at the facility are processed by shredding. Tire shreds are beneficially reused in multiple applications (e.g. alternating daily cover for Class I landfills).

The facility had a low volume of unprocessed tires on-site during this inspection, due to recent processing.

The facility's permit is due for renewal December 16, 2019. Facility management was reminded they will need to submit a renewal application for the permit 61 days prior to the expiration date (October 15, 2019).

There were no violations or concerns noted during this inspection.
