Permit No. 35435-022-SO-01

Dear Ms. Madden:

As required by Appendix 4, Section E.2.c. of the Southeast County Landfill (SCLF) Operation Permit dated December 3, 2018, this letter certifies that soils within the "Restricted Property" (on-site soil borrow area) are available and accessible. Based on a review of the information provided as part of the September 2015 Operation Permit Intermediate Modification Application and an on-site inspection of the borrow area, there have been no modifications to the borrow area (see attached Figure 1). It appears the soil is of suitable quality for typical closure construction and of sufficient quantity to complete the closure of Phases I-VI and the Capacity Expansion Area Section 7, 8, and 9 per the approved closure design.

Please contact us if you have any questions or require additional information.

Sincerely,

Trent M. Arney, E.I.T.
