COMMENTS:

Tire Depot is a tire retail business that primarily sells used tires. They have a processing permit in order to allow them to have up to 7,000 used tires to provide an adequate range and depth of inventory. Based on the small size and uniqueness of the facility, there are some checklist items documented as "N/A". The site is well organized with an aggressive mosquito control program. Due to the Covid-19 pandemic no in office file review was conducted
