Inspection Date: 09/21/2022

**Current Violations:**

Rule: 62-701.630(4), 62-701.710(1)(d)1., 62-701.710(7)(a), 62-701.730(11)(a), 62-711.500(3), 62-713.600(6)(b), 62-713.600(6)(c)

Question Number: 1.9

Explanation: A file review determined the last cost estimate for closure costs on file was dated January 7, 2020. The financial instrument on which it was based was dated January 8, 2020. Rule 62-711.500(3) Florida Administrative Code (Fla. Admin. Code) provides "The costs shall be based on a third party, who is not a subsidiary or parent company, performing the work, reported on a per unit basis. ... The cost estimate shall be re-estimated at least annually and submitted to the Department at least 60 days prior to the anniversary date of the instrument."

Corrective Action: The facility shall provide a re-estimated closure cost estimate to the District within 30 days or receipt of this inspection report. Additionally, the facility shall provide an updated Financial Instrument to the Solid Waste Financial Group, within 30 days of the approval of the updated estimate.

---

Rule: 62-701.300(1)(a)

Question Number: 9.1.1

Explanation: Department staff counted approximately 165.5 trailers in the yard (approximation due to combination of several partial trailers combined for a full trailer estimate) and an estimated 10 trailers of tires in the warehouse for a total of 175.5 trailers or about 210,600 tires on site. Specific Condition Section 2 C.4 of Permit No.: 321853-003-WT provides "The maximum amount of waste tires at the Facility shall be less than 125,000 tires." The 125,000 tires is the equivalent of 104 trailers as specified in the permit. The facility is currently over the maximum amount of tires authorized, representing unauthorized storage of approximately 85,600 waste tires.

Corrective Action: The facility shall reduce the amount of waste tires on site to below 125,000 tires within 30 days of the inspection. Report corrective action to the Department via phone or email immediately upon completion to arrange for a confirming inspection.

---

**COMMENTS:**

- 1) Item No. 1.8 is N/A, because there is no approved re-estimated closing cost with which to compare to the current instrument.
  - 2) Note that permit currently references 62-701.630 for Financial Assurance for landfills, which requires an annual inflationary cost estimate to be submitted between January 1 and March 1. Rule 62-711.500(3), for waste tires, overrides this error in the permit. Waste tire financial assurance requires annual recalculations based on third party quotes to be submitted 60 days prior to the anniversary date of the instrument.
  - 3) The permit does not authorize outside storage of tires in piles. Storage is in trailers in a field in a manner specified in the permit. As a result, some of the Item Nos. on the checklist for outside storage are marked as N/A.
