Re: CEMEX/Florida Crushed Stone Waste Tire Processing Facility
2008 Financial Assurance Cost Estimate
FDEP Permit No. 22787-002-WT Incorporated Into Site Certification PSA82-17

Dear Ms. Madden:

The above referenced facility has experienced no changes and is operating in compliance with the permit requirements. The maximum quantity of tires allowed to be stored on site is 205 tons. The anticipated disposal cost for the maximum storage quantity is calculated as follows:

2007 Disposal Cost Estimate = \$21,332.38
FDEP Inflation 2008 Multiplier = 1.03
2008 Disposal Cost Estimate (1.03 x \$21,332.38) = \$21,972.35

Should you have any questions and/or comments or require additional information, please contact me at 352-799-6088, ext 104, email – gtownsend@cemexusa.com.

Respectfully,

George Townsend
