Re: GMS I.D. NO.: 5056P01887

Closure Cost Estimates Dated: **July 15, 2004 and revised on July 29, 2004**

I have reviewed the above closure cost estimates totaling \$56,670.00 and have determined that these estimates are acceptable as submitted for this Waste Tire Processing Facility. A copy of the estimate is attached. Although the revised estimate is less than what is existing on file, FTRI requests the amount of the bond to remain at "\$72,000.00", see July 15, 2004 letter.
