FLORIDA TIRE TERMINAL

P.O. Box 1733/400 Feagin St.
Avon Park, Fl 33825

August 21, 1995

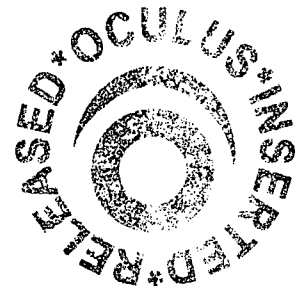

TO: Department of Environmental Protection
Attention: Bill Krumbholz

FROM: Robert A. Reisig: Manager, Florida Tire Terminal

Florida Tire Terminal has been in business for ten years and is a wholly owned subsidiary of Beck's Tire Service, Inc. We employ ten people and provide used tires as a product to a local and national clientel. We purchase rough stock from government entities throughout the state of Florida. We then transform the product into a useable item to be sold as competition to new tires. We do not recycle our tires on site, but we do ship our bad tires to various locations to be recycled. We have survived in a small niche in the tire business and we look forward to continued success, in harmony with our neighbors and our customers.

Yours truly,

A handwritten signature in cursive script, appearing to read "Robert A. Reisig".
