As this is an emerging industry, we may not have included all DER requirements. Please advise if there are other subjects or items under the control or supervision of DER for this type of business.

If FTR is not complying within all DER operational and storage limitations what action, if any, is anticipated? Please note this is part of our annual credit review process and should not be construed otherwise. I can be reach at 407-388-6033 if there are any questions. Thank you for your assistance.

Sincerely yours,
