SUNCOM:

TO: Joe Lurix WPB

(LURIX_J @ A1 @ WPB1)

Subject: FTR application

The closure cost estimate addresses 30,000 tons of processed tires. Terry's estimate is 64,589 tons. They need to provide more detail if they expect us to accept 30,000 tons as accurate.

Terry estimated 3,756 tons of truck and off-road tires. Some of these could be sold for retreading or as used tires. The majority are scrap. The cost estimate does not address the scrap.
