SUMMARY

Just Wohlfelder, Sonny Teague & Jack on conf call

Just makes ^{trial} ~~the~~ standard (950 ppm). Reads @ 850 ppm on Dexsil

Checks all incoming loads w/ Dexsil
 Reports Betty's 2000 ppm of used methylene chloride which is much more volatile than ~~TIC~~ ^{TIC} ~~rich~~ - > degrades once jar is opened - All new employees have been trained

➔ I'll call Betty & talk to her when she's back next week. Basically, I think SWD should handle this. Jack willing to visit them to facility for mty etc.
