You are correct, I already have the Contingency Plan. All compliance issues have been addressed.

I assume from the certified mail receipts that the update Contingency Plan is on its way to me. Also, with the logs, remember it has to be the "LEGIBLE" name of the inspector. I am not going to make you filled it out again but from now on it should be printed and "LEGIBLE." Not to be a hard guy but if the next time I come if that is not the case, I will go to enforcement. As I have to answer to the powers that be, as well.
