RE: Cliff Berry, Inc.- Tampa  
EPA I.D. No. FLD 000 013 888  
Permit Number: 0076517-HO-005  
Used Oil Processing Facility Permit  
Notice of Deficiency - 2

Dear Mr. Parkes:

The Florida Department of Environmental Protection (the Department) has received your permit renewal application NOD response dated April 3, 2009 and DEP received on April 3, 2009 to operate a Used Oil and Material Processing facility at 5218 Saint Paul Street, Tampa, Florida, 33619.

The review of the permit renewal application NOD responses indicates that it is incomplete. Please provide the information requested in the enclosed attachment. In preparing your response, the Department recommends that you identify each comment followed by your response and also provide your revised pages of the application. The revised pages are to include the new revision date.

Further action on processing your application is temporarily held in abeyance pending receipt of your complete response. Please submit three copies of your written response (two copies to the Tallahassee Solid and Hazardous Waste Regulation Section, and one to the Southwest District office). If you cannot submit all this information within 30 days, you must formally request an extension and provide a schedule, with dates, indicating when this information will be submitted.

Mr. William Parkes

**Cliff Berry Incorporated**  
**Tampa, Florida**  
**EPA I.D. Number: FLR 000 013 888**  
**Notice of Deficiency -2**

**GENERAL COMMENTS**

**2. The purpose of combining Solid Waste (SW) permit with Used Oil (UO) permit is that the company would be bringing in SW that would be associated with Oily waste such as petroleum contaminated waste and absorbents to a limited capacity. This does not appear to be the case with the CBI, Inc. Tampa, UO processing facility. Please clarify and address the following point which you mentioned in your April 3, 2009 response submittal as part of the solid waste proposed permitting activities:**

- d. Specify the solidifying agent and be specific.**

**“The facility indicated that the solid waste will be blended and then mixed to produce a solid waste appropriate for land filling”. This is not acceptable. The facility must specify what material you will be using to mix with the solid waste, for example: wood chips, saw dust, or mulch. The Facility cannot be using fly ash or another solid waste.**

**Please review, revise and resubmit the paragraph.**

Additional Comment:

Also, the Department would like to inspect the “pit”(chamber), after it has been cleaned out, but before the epoxy is put down. Please let us know the schedule of planned activities at least seven (7) days before the event, so that the department can plan to visit the facility.
