Dear Ms. Bentzen,

On behalf of AERC.com, Inc., and in agreement with the approved In-Kind Project Plan for the AERC West Melbourne, FL facility, I am providing you this communication of the Quarterly Progress Report.

The following activities have occurred; been completed; or are currently underway:

1. Revisions to the video script accomplished since the last quarterly report have been successfully incorporated into the production of a final english-language version of the video by OMNI Productions. This current product, which includes corrections noted by the FDEP within the last few weeks is available for review at: <http://www.omninemedia.com/testsites/aerc.html>
2. Comments on the spanish-language script were received earlier today from the Department. This markup has been sent to the video production staff for review and development of the spanish-language video. A draft of this video will be provided to the Department as soon as it is available.
3. AERC has finalized the development of intended materials planned for the retail shelf tear-off sheets. Both an english and spanish-language version, as documented with the PDF received via email earlier today from the Department, will be used as final copy for print production.
4. A list of participating stores within the Central District of the FDEP is forthcoming. AERC will be working to include stores representative of the district as a whole, including; Brevard, Indian River, Lake, Marion, Orange, Osceola, Seminole and Volusia counties.
