Incident #: SWP100316 - 1765

SWP Jones on 03/16 at 09:02 AM

Last Modified: 03/16 at 09:14 AM

County: Marion

Oil Spill

Incident Details

Incident Type:	Petroleum Spill
Incident Status:	Closed
Incident Severity:	Level 2
	2 - A spill between 25 - 10,000 gallons on land or between 0 - 10,000 gallons into marine waters; or between 0 - 1,000 gallons into inland waters.
Incident Occurred Date/Time:	03/16/2010 04:00 AM EDT
Caller:	Darwin Robinson
Caller Address:	359 Cypress Rd
Callback #:	352 687-0688 Time of Call: 03/16/2010 09:02 AM EDT
Caller Represents:	Safety Clean

Comments

A representative with Safety Clean reports that approximately 150 gallons of oil overflowed from a railroad car on the rock area surround the tracks in Ocala. No waterways have been affected and clean-up is being conducted. All standing puddles are being vacuumed and the rock is being removed. No fires or injuries have been reported.
