Dear Mr. Coomes:

Coomes Oil and Supply, Incorporated  
Hazardous Waste Inspection of January 4, 1985  
FLD 000 612 010 - St. Johns County

Enclosed is a copy of the report documenting the January 4, 1985  
Hazardous Waste Inspection conducted by this office.

Your facility is currently a non-handler of hazardous waste.  
However, written documentation must be provided to this office  
in ten (10) days, as to the ultimate fate of the batteries once  
"Ed the Junkman" takes them to Jacksonville. As long as the  
batteries are being legitimately recycled, you will not be  
subject to regulation under 40 CFR Part 264. If this is not the  
case, you will be subject to all applicable requirements for  
facilities that store hazardous waste.

If you have any questions regarding this report or hazardous  
waste regulations, please do not hesitate to contact this office  
at (904) 396-6959.

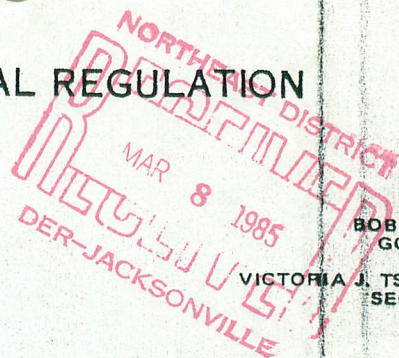

Sincerely,

Karl M. Kramer  
Environmental Specialist

7. Discrepancies with Process Description; if different from previews report.

Coomes Oil and Supply is a dealer of bulk fuel and lubricating oils, assorted auto parts (fan belts and hoses) and accumulates spent Atlas batteries from local service stations.

At the time of inspection, there were three (3) pallets of spent batteries. Mr. Coomes indicated the batteries are sold for two dollars each, to a local battery vendor who takes them to Jacksonville. If the batteries are legitimately recycled, the facility will be exempt from regulation under 40 CFR 261.6. However, written documentation must be provided to this office, within ten (10) days, as to the ultimate fate of the batteries once transported to Jacksonville.

8. List and explain noncompliance items.

See Process Description.
