1. Zurich American Ins. Co. of Illinois (the Insurer), 960 Amc, PO Box 2020, Conway, AR 72033
(Name of the Insurer) (Address of the Insurer)

hereby certifies that it has issued liability insurance to: HR Lewis Petroleum Company (the Insured),
(Name of the Insured)

PO Box 40763, Jacksonville, FL 32203 whose EPA Identification number is FLR 000048561
(Address of the Insured)

This insurance complies with the insured's obligation to demonstrate the financial responsibility required by Florida
Administrative Code Rule 62-710.600(2)(e). [See page 2 on the back side of this Form]

The insurance is primary and the company shall be liable for amounts up to \$ 1,000,000 less the deductible or
retention of \$ for each accident exclusive of legal defense costs. If a deductible or retention is applied,
its amount may not exceed 10% of the equity of the Insured.

This coverage is provided under policy number CP09470304 issued on 7/13/2009
(Date)

The expiration date of said policy is 7/13/2010 or the annual renewal date is
(Date) (Date)

2. The Insurer further certifies the following with respect to the insurance described in Paragraph 1:

- a. Bankruptcy or insolvency of the insured shall not relieve the Insurer of its obligations under this policy.
b. The Insurer is liable for the payment of amounts within any deductible applicable to the policy, with a right of reimbursement
by the Insured for any such payment made by the Insurer.
c. Whenever requested by the Secretary (or designee) of the Florida Department of Environmental Protection (FDEP), the
Insurer agrees to furnish to the Department a signed duplicate original of the policy and all endorsements.
d. Cancellation of the insurance, whether by the Insurer or the Insured or by any other termination of the insurance (e.g.
expiration or non-renewal), will be effective only upon written notice and only after the expiration of thirty (30) days after a copy
of such written notice is received by the Secretary of the FDEP as evidenced by certified mail return receipt.
e. The Insurer shall not be liable for the payment of any judgment or judgments against the insured for claims resulting from
accidents which occur after the termination of the insurance described herein, but such termination shall not affect the liability of
the Insurer for the payment of any such judgments resulting from accidents which occur during the time the policy is in effect.

I hereby certify that the Insurer is licensed to transact the business of insurance, or eligible to provide insurance as an excess or
surplus lines insurer, in one or more States, including Florida.

**Chapter 62-710.600(2)(e), Florida Administrative Code
Certification Program for Used Oil Transporters**

(e) Have, verify, and maintain vehicle insurance with a combined single limit of no less than \$1,000,000. Such insurance, or additional policy, must in no way exclude pollution coverage for sudden and accidental alleged or threatened discharge, dispersal, seepage, migration, release or escape of used oil, and must include any cost or expense relating to pollution damage for which the transporter is legally liable. Such insurance must be maintained at all times and be exclusive of legal defense costs.

1. The insurance required in this paragraph may be established by:

- a. Evidence of liability insurance, either on a claim made or an occurrence basis, with or without a deductible (with the deductible, if any, to be on a per occurrence or per accident basis and not to exceed ten percent of the equity of the business), using DEP Form 62-710.901(4). The insurance policy shall be issued by an agent or company authorized or licensed to transact business in the State of Florida. An ACORD form will only be accepted for renewal of a policy with the same carrier; or
- b. For business entities registered in Florida, evidence of self-insurance provided by the chief financial officer of the business entity.

2. States and the federal government are exempt from the requirements of this paragraph.

**ENDORSEMENT FOR
MOTOR CARRIER POLICIES OF INSURANCE FOR PUBLIC LIABILITY
UNDER SECTIONS 29 AND 30 OF THE MOTOR CARRIER ACT OF 1980**

Form Approved
OMB No. 2125-0074

Issued to H. R. LEWIS PETROLEUM COMPANY of PO BOX 40763, JACKSONVILLE FL 32203

Dated at Conway, AR this 09TH day of JULY, 2009

Amending Policy No. CPO9470304 Effective Date 07/13/2009

Name of Insurance Company ZURICH AMERICAN INSURANCE COMPANY OF ILLINOIS

Telephone Number (800) 233-2398 Countersigned by 
Authorized Company Representative

The policy to which this endorsement is attached provides primary or excess insurance, as indicated by "", for the limits shown:

- This insurance is primary and the company shall not be liable for amounts in excess of \$ 1,000,000 for each accident.
- This insurance is excess and the company shall not be liable for amounts in excess of \$ _____ for each accident in excess of the underlying limit of \$ _____ for each accident.

Whenever required by the Federal Highway Administration (FHWA) or the Interstate Commerce Commission (ICC), the company agrees to furnish the FHWA or the ICC a duplicate of said policy and all its endorsements. The company also agrees, upon telephone request by an authorized representative of the FHWA or the ICC, to verify that the policy is in force as of a particular date.

Cancellation of this endorsement may be effected by the company or the insured by giving (1) thirty-five (35) days notice in writing to the other party (said 35 days notice to commence from the date the notice is mailed, proof of mailing shall be sufficient proof of notice), and (2) if the insured is subject to the ICC's jurisdiction, by providing thirty (30) days notice to the ICC (said 30 days notice to commence from the date the notice is received by the ICC at its office in Washington, D.C.).

DEFINITIONS AS USED IN THIS ENDORSEMENT

ACCIDENT includes continuous or repeated exposure to conditions which results in bodily injury, property damage, or environmental damage which the insured neither expected nor intended.

MOTOR VEHICLE means a land vehicle, machine, truck, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used on a highway for transporting property or any combination thereof.

BODILY INJURY means injury to the body, sickness, or disease to any person, including death resulting from any of these.

ENVIRONMENTAL RESTORATION means restitution for the

loss, damage, or destruction of natural resources arising out of the accidental discharge, dispersal, release or escape into or upon the land, atmosphere, watercourse, or body of water, of any commodity transported by a motor carrier. This shall include the cost of removal and the cost of necessary measures taken to minimize or litigate damage to human health, the natural environment, fish, shellfish, and wildlife.

PROPERTY DAMAGE means damage to or loss of use of tangible property.

PUBLIC LIABILITY means liability for bodily injury, property damage and environmental restoration.

The insurance policy to which this endorsement is attached provides automobile liability insurance and is amended to assure compliance by the insured, within the limits stated herein, as a motor carrier of property, with Sections 29 and 30 of the Motor Carrier Act of 1980 and the rules and regulations of the Federal Highway Administration (FHWA) and the Interstate Commerce Commission (ICC).

In consideration of the premium stated in the policy to which this endorsement is attached, the insurer (the company) agrees to pay, within the limits of liability described herein, any final judgment recovered against the insured for public liability resulting from negligence in the operation, maintenance or use of motor vehicles subject to the financial responsibility requirements of Sections 29 and 30 of the Motor Carrier Act of 1980 regardless of whether or not each motor vehicle is specifically described in the policy and whether or not such negligence occurs on any route or in any territory authorized to be served by the insured or elsewhere. Such insurance as is afforded, for public liability, does not apply to injury to or death of the insured's employees while engaged in the course of their employment, or property transported by the insured, designated as cargo. It is understood and agreed that no condition, provision, stipulation, or limitation contained in the policy, this endorsement, or any other

endorsement thereon, or violation thereof, shall relieve the company from liability or from the payment of any final judgment, within the limits of liability herein described, irrespective of the financial condition, insolvency or bankruptcy of the insured. However, all terms, conditions and limitations in the policy to which the endorsement is attached shall remain in full force and effect as binding between the insured and the company. The insured agrees to reimburse the company for any payment made by the company on account of any accident, claim, or suit involving a breach of the terms of the policy, and for any payment that the company would not have been obligated to make under the provisions of the policy except for the agreement contained in this endorsement.

It is further understood and agreed that, upon failure of the company to pay any final judgment recovered against the insured as provided herein, the judgment creditor may maintain an action in any court of competent jurisdiction against the company to compel such payment.

The limits of the company's liability for the amounts prescribed in this endorsement apply separately, to each accident, and any payment under the policy because of any one accident shall not operate to reduce the liability of the company for the payment of final judgments resulting from any other accident.

The Motor Carrier Act of 1980 requires limits of financial responsibility according to the type of carriage and commodity transported by the motor carrier. It is the MOTOR CARRIER'S obligation to obtain the required limits of financial responsibility.

THE SCHEDULE OF LIMITS SHOWN ON THE NEXT PAGE DOES NOT PROVIDE COVERAGE.

The limits shown in the schedule are for information purposes only.

SECTION C USED OIL FILTERS (OPTIONAL) (USE TABLE BELOW FOR CONVERSIONS)

CHECK COLUMN IF OUT OF STATE ↓

1. Number of filters on hand from previous year.....	0	
2. Number of used oil filters collected.....	72,250	
3. Total number of used oil filters to manage (1 plus 2).....	72,250	
4. Disposition of used oil filters collected:		
a. Transferred to another registered facility.....		
b. Burned for energy recovery at a Waste-To-Energy facility.....		
c. Transferred directly to a metal foundry for recycling.....	52,500	
d. TOTAL.....	52,500	
5. End of year, on hand estimate (Difference between Lines 3 and Line 4d).....	19,750	
6. Gallons of used oil collected as a result of filter processing.....		
7. Gallons of used oil transferred to a used oil handler (transporter or processor).....		
8. Volume of oily waste collected and managed as a result of filter processing.....		
9. Description of oily waste management.....		

DIRECTIONS FOR SECTION C

Conversion Table

One 55-gallon drum of crushed used oil filters = approximately 400 used oil filters
One 55 gallon drum of uncrushed used oil filters = approximately 250 used oil filters
One ton of drained used oil filters = approximately 2,350 used oil filters

1. Enter the number of Used Oil Filters on hand, from previous year's inventory.
2. Enter the number of Used Oil Filters collected.
3. Enter the sum of Line 1 + Line 2.
4. Enter the number of filters managed by your facility in blocks 4a-c. Enter the sum of 4a-c in block 4d.
5. Enter the number of filters on hand at your site as of December 31, last year.
6. Fill in the number of gallons of used oil collected by your filter operation.
7. Enter the number of gallons transferred to a used oil transporter or processor.
8. List the volume (gallons or cubic yards) of the oily wastes collected through your filter handling. Oily wastes are identified in Chapter 62-710.201(1) of the Florida Administrative Code and include bottom sludges, sorbents, wipes etc.
9. Describe how oily wastes were managed (sent to a WTE, hazardous waste facility, landfilled after appropriate testing, etc.).

SPILL AVOIDANCE AND EMERGENCY RESPONSE PROCEDURES FOR RELEASES OF USED OIL

Spill avoidance is best approached from a common sense viewpoint. Use your best judgment to determine the action to take. It is strongly recommended that all containers and tanks used to collect used oil be placed on a curbed, oil-impervious surface to contain any release of oil. **In the event of a release of oil (spill or leak) the owner or operator must do the following:**

1. Attempt to stop the source of the spill and begin initial containment procedures. The presence of an impervious liner beneath the collection/storage container may allow much of the spill to be contained and recovered. Containment may also be initiated using sorbent materials such as "kitty litter", oil pads, or oil socks. If a small amount of oil should spill on the ground, the procedure which is usually advised is to remove the affected soil by shoveling it out into a container until no more oil is present. Check with your local landfill and ask if they will accept the material.
2. If the amount of oil spilled is more than 25 gallons, immediately contact the State Warning Point by phone at (850) 413-9911.
3. Contact the DEP District Office nearest you and report the spill. The DEP would appreciate all spills be reported, even though the legal reportable quantity is 25 gallons. Ask the State Warning Point for technical assistance from the DEP representative if it is after normal business hours.
4. Technical guidelines will then be followed on a case-by-case basis during the cleanup.

Training for Newly Hired Employees

In the event we hire a new employee training will begin immediately as soon as our Human Resources department approves him/her for employment.

This training will be done in the form of On the Job Training (OJT) and within the first month of employment. Additionally the training will be conducted in a classroom setting covering the FEDP rules for used oil handling, transporting, storing, filter handling & storage, and handling of antifreeze.

This training will be conducted prior to allowing the employee to collect, transport, or handle any product. If we should hire a person that has had prior experience in all aspects of uses oil we may opt for a test to ascertain what knowledge he has and remedial training if necessary, plus On the Job Training (OJT).
