RE: Update of Closure Cost Estimate

Hazardous Waste Regulation

Dear Mr. Soldano:

The Department is in receipt of your letter dated July 20, 1999, requesting a change of the closure cost estimate for permit #H005-275169.

The Department has evaluated the information, as submitted, regarding the price decline for the recycling of mercury-containing lamps. At this time, the Department has no objection to the overall cost reduction of the original closure cost estimate in the amount based on this price decline.

Please note that if economic conditions or circumstances should change to increase this recycling cost in the future, the facility would be required to again amend these closure cost estimates accordingly.

Please do not hesitate to contact Chris Aoussat at (407) 893-3323 if you should have any questions.

Sincerely,

Robert T. Snyder, P.E.
Program Manager
Hazardous Waste Section
