RMC QA'ed

Al,

I see this as a major modification to the application which requires a fee and new application although the permit has not been issued. Have you handled cases like this in the past? Bill P.

Bill -

Please see attached latest storage tank info:

Tank No. 1 10' 6" DIA 25,000 GAL. CAPACITY
Tank No. 2 12' DIA 25,000 GAL. CAPACITY
Tank No. 3 12' DIA 25,000 GAL. CAPACITY
Tank No. 4 12' DIA 30,000 GAL. CAPACITY
Tank No. 5 12' DIA 25,000 GAL. CAPACITY
Tank No. 6 12' DIA 25,000 GAL. CAPACITY
Tank No. 7 12' DIA 30,000 GAL. CAPACITY
Tank No. 8 10' 6" DIA 15,000 GAL. CAPACITY
Tank No. 9 10' 6" DIA 12,000 GAL. CAPACITY
Tank No.10 10' 6" DIA 12,000 GAL. CAPACITY

Note: Tank No. 5 position in the tank farm was eliminated to make room for fuel oil strainers. The tanks were re-numbered for example the old Tank No. 6 becomes the new Tank No. 5 , ETC. The tank farm is currently under construction. It's possible there could be some other minor changes. Upon completion of construction I will forward a set of "As Built" construction prints and the updated/revised pages of the SPCCP page 2.2, ETC. to you. If you have any questions please call me or e-mail me.

Thanks,

Bill Parkes
