If you are confident the potable well is of no concern, we at the District have no problem with your decision. Please keep documentation in the file. I believe this issue may have arisen during one of our very first meetings when they were even proposing management of solid waste at the site. If they have no intention of managing solid waste (such as HOWCO) then I believe you are justified in deciding that the potable well is not an issue.

Sincerely,

AFG

Albert F. Gephart, Engineer IV
