RMC **QA'ed**
Initials _____ **Date** _____

62-4.055 (5) says 90 days to approve or deny. If I had any intention of denying, I would have to do it by 12/2. If I run over 90 days, I am out of compliance with the rule and lose the option of denial. There is no "default" permit.

Are we going to have to issue them a permit because of "default"? The statute says the Dept. must respond within 60 days from receipt which would have been 11/1/03.
