The waste was rejected by CBI because we couldn't get the profile completed in a timely fashion. During this time period, the profile process at US Ecology changed without notice and therefore any new profiles needed two signatures, rather than the previous one signature. So, US Ecology had given our DS group the verbal "okay" on the profile, but when we relied upon that verbal and went to get the waste, they made a the paperwork change. Therefore, our DS group had to start again and we just ran out of time. So, the waste was rejected based upon failure to meet profile requirements. Basically a red tape issue.

CAUTION - EXTERNAL EMAIL

Received! Thank you so much for getting this to me so quickly. I will let you know if anything else is required. For now, can you please send me a brief written description of why this waste was rejected for our records?

Thank you,
Tarin

I believe the profile number changed once it was corrected, sorry I don't have any explanation as to why the profile number changed from the one on the manifest to the one that was signed Oct 29. Also attached the flammable drum that was returns and then later picked up.

Thanks,

Kelly Brandenburg

G. REGULATORY INFORMATION1. Volatile Organic Concentration: (Per 40 CFR Part 264.1083 & 265.1084) ☐ <500 ppmw ☒ ≥500 ppmw2. Has the material been treated after the initial point of generation? ☐ Yes ☒ No**3. If RCRA Hazardous:**☐ Wastewater WW≤1% TSS & TOC; 40 CFR Part 268.2☒ Non-wastewater TSS/TOC>WW☐ Alternative Treatment Standards for soil? > 50% soil; 40 CFR Part 268.49☐ Alternative Treatment Standards for debris? 40 CFR Part 268.2(g) & (h); >50% of waste is >2.5 inch size☐ I confirm debris cannot reasonably be separated from non-debris by simple physical or mechanical means☐ I confirm debris has not been mixed/diluted with non-debris as prohibited in 40 CFR Part 268.3☐ Waste meets LDR Treatment Standards**4. Treatment subcategory: (if applicable)**5. Is the site or waste/material, subject to NESHAP/MACT standard(s)? ☐ Yes ☒ No

6. Is the waste/material RCRA Hazardous containing Benzene and originating at a petroleum refinery (SIC 2911), chemical manufacturing plant (SIC 2800 thru 2899) or Coke by-product recovery plant (SIC 3312)?

☐ Yes ☒ No (If yes, complete the Benzene Waste Operations Supplement and if applicable the Thermal Supplement)**H. GENERATOR'S CERTIFICATION**1. Is a specific facility or treatment technology requested? ☒ Yes ☐ No

2. Requested Technology:

3. Thermal Processing:

☐ Yes ☒ No

4. Other specific restrictions requested:

5. Requested US Ecology Facility: US Ecology Tampa

Certificate Statement:

I certify that all information (including attachments) is complete, factual and is an accurate representation of the known and suspected hazards pertaining to waste/material described herein. I authorize US Ecology's personnel to add supplemental information to the Waste/Material Profile Form, provided I am contacted and grant permission to do so. US Ecology may require re-submittal of the Waste/Material Profile Form if substantial changes are determined necessary. I authorize US Ecology's personnel to obtain a sample from any waste/material shipment for purposes of verification and confirmation and understand that waste/material that does not conform to specifications described in this Waste/Material Profile Form may be rejected by US Ecology. I certify that I am familiar with the waste/material described herein through analysis and/or process knowledge and that all information provided is true, accurate, representative and complete and that this Waste/Material Profile Form was completed in accordance with the instructions provided.

If I am an agent acting on behalf of the generator, I also certify that I have permission to sign any and all waste/material characterization paperwork on the generator's behalf and that I can produce such certification in writing upon request.

LAND DISPOSAL RESTRICTION FORM (From Question G3)

GENERATOR INFORMATION

1. Generator:	IRL LABS	2. EPA ID Number:	FLR000166751
5. Waste is a:	<input type="radio"/> Wastewater (<1% TSS & TOC) <input checked="" type="radio"/> Non-wastewater	<input type="radio"/> Debris	
6. Notification Frequency:	<input type="radio"/> One Time <input type="radio"/> Required with Each Shipment		
7. Shipment EPA Waste Codes:	D007, D011		
8. UHC's: (Underlying Hazardous Constituents 40 CFR 268.48)? (If yes, list constituents):		<input type="radio"/> Yes <input checked="" type="radio"/> No	
9. Does a subcategory apply per 40 CFR 268.40? (If yes, select subcategory):		<input type="radio"/> Yes <input checked="" type="radio"/> No	
10. Constituents requiring treatment in F001-5, F039, debris, and alternate soils? (If yes, list):		<input type="radio"/> Yes <input type="radio"/> No	

Requires Treatment

- ☐ Waste Subject To Treatment (40 CFR 268.7(a) (21))

The restricted waste identified above must be treated to the applicable treatment standards in 40 CFR 268.40, or treated to comply with applicable Prohibitions set forth in Part 268.32 or RCRA Section 3004(d) and 268.49 (c).

If applicable, under 268.49, this contaminated soil ☐ does or ☐ does not contain listed hazardous waste and ☐ does or ☐ does not exhibit a characteristic of hazardous waste and is subject to the soil treatment standards as provided by 268.49 (c) or the universal treatment standards.

- ☐ Hazardous Debris Subject To Treatment (40 CFR 268.45)

This hazardous debris identified above must be treated to the alternative treatment standards in 40 CFR 268.45.

- ☐ Waste De-characterized But Requires Treatment For UHC (40 CFR 268.7 (b) (4) (iv))

I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 or 268.49 to remove the hazardous characteristic. This de-characterized waste contains Underlying Hazardous Constituents that require further treatment to meet treatment standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

Waste Meets Treatment Standards

- ☐ Waste Meets Treatment Standards (40 CFR 268.7(a) (31))

The restricted waste identified above meets the treatment standards in 40 CFR 268.40 or Alternative LDR treatment standards for contaminated soil 40 CFR 268.49 and can be landfill disposed without further treatment.

If applicable, under 268.49, this contaminated soil ☐ does or ☐ does not contain listed hazardous waste and ☐ does or ☐ does not exhibit a characteristic

of hazardous waste and complies with the soil treatment standards as provided by 268.49 (c) or the universal treatment standards.

I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D. I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

- ☐ Waste Treated To Treatment Standards (40 CFR 268.7(b) (1) & 268.7 (b) (21))

The treatment residue, or extract of such residue, or the restricted waste identified above has been tested to assure that the treatment residues or Extract meet all applicable treatment standards in 40 CFR 268.40 and/or performance standards in 40 CFR 268.45

I certify under penalty of law that I personally have examined and am familiar with the treatment technology and operation of the treatment process used to support this certification. Based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the treatment process has been operated and maintained properly so as to comply with the treatment standards specified in 40 CFR 268.40 without impermissible dilution of the prohibited waste. I am aware there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

- ☐ Waste Soil treated to alternative standards (40 CFR 268.7 (b) (41))

I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and believe that it has been maintained and operated properly so as to comply with treatment standards specified in 40 CFR 268.49 without impermissible dilution of the prohibited wastes. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment.

I certify and warrant that the information that appears on this form, and appended documents, is true and correct. I have correctly indicated how my waste is to be Managed in accordance with 40 CFR 268. My certification is based on personal examination of the information submitted, or is based on my inquiries of those individuals responsible for obtaining the information.

WASTE/MATERIAL PROFILE FORM

VSQG/CESQG Certification (From Section A6)

Profile ID: 699853

VSQG/CESQG CERTIFICATION

According to Section 40 of the Code of Federal Regulations (CFR), subsection 260.10 and subsection 261.5 a Very Small Quantity Generator (VSQG) and a Conditionally Exempt Small Quantity Generator (CESQG) are generators who are conditionally exempt in a calendar month if they generate no more than 100 kilograms (220 pounds) of hazardous waste or 1 kilogram (2.2 pounds) of acute hazardous waste or 100 Kilograms (220 pounds) of residue from the cleanup of any acute hazardous waste in a month. Additionally, VSQG/CESQG generators may not accumulate at any one time in excess of 1,000 kilograms (2,200 pounds) of hazardous waste or 2.2 pounds of acute waste without being subject to 40 CFR 262.44, 263 through 266, 268 and parts of 270 and 124 of this chapter, and the applicable notification requirements of section 3010 of RCRA.

☐ I certify that the generating location provided in section A6 of the Profile Form meets the requirements for a VSQG/CESQG.
