

Our Company...

Environmental Remediation Services, Inc. (ERS) is a Florida corporation and has been in business in Jacksonville since 1990. During that time, we have established an excellent reputation as a reliable and professional environmental contractor.

ERS' environmental professionals are knowledgeable in the field of environmental/hazardous waste management and hazardous waste transportation. Our staff receives on-going training and is medically monitored in accordance with OSHA requirements of 29 CFR 1910. ERS has an excellent safety and regulatory compliance record.

ERS meets or exceeds the requisite corporate insurance coverage including comprehensive business liability, workers compensation, employer liability, company vehicle insurance, commercial general liability and pollution liability.

Our Promise...

ERS is committed to providing safe and environmentally correct solutions to the projects our clients entrust to us. We provide personalized service, with attention to detail, from the initiation of projects to completion. We take the "hassle" out of dealing with contractors and allow our clients to focus on business their business.

Our goal is to meet or exceed our customers' expectations. We accomplish this by being responsive to our customers' needs and providing real world solutions to real world problems. We define quality by customer satisfaction and return business.

State and Federal Regulations are becoming more stringent each year. Whether you have a current environmental concern or plan to prevent a future one, ERS has the answers. We are dedicated to providing a comprehensive environmental compliance program which meets your current and future needs. Our goal is to minimize your liability in the most cost effective manner.
