Yeah, we have gotten that response from a lot of facility but unfortunately it is required under the Contingency Plan rules for a used oil processor; which you are notified as based on your capacity alone. The citation is 40 CFR Part 279.52(b)(2)(iv). I should hope that those who would be able to review such information, i.e. your employees, local authorities, and regulatory authorities could be trusted not to use this information in an inappropriate manner. Please update the emergency number page per the citation and resubmit for approval before distribution.

**Subject:** RE: Primary and Secondary Emergency Contact Persons

I would be happy to oblige, but neither of these people would like to have their home address in the plan and are challenging the requirement. Would you mind if we did not include home addresses, or would you please forward the citation that requires inclusion. Many thanks.

Best regards,

Steve

Still have to include the primary and secondary EC's home addresses. If you make that change, then the rest looks good. Please be sure to do this before distributing. Thanks, Kathy

Hey Kathy,

It was good to see you too. I have the Primary and Secondary Emergency Contact Persons identified at the top of the list. Please confirm approval and I will distribute. Thank you.

Best regards,

Steve

This is great expect you should have the primary and secondary emergency coordinators at the top of this list with contact information for them. i.e. cell phone numbers and home address. Please revise and distribute. Send me a copy of the revised pages and then just the certified mail receipts when you receive them. Thanks for moving on this quick and it was good seeing you again.

The Number for the FDEP should be (561)681-6600, that ids the main day time line, the emergency response number you have listed is correct. Just change that number and this contact list is ready for distribution to local authorities and submittal to us, as well. Thanks for your cooperation with this issue, I need to check to see if you still owe us anything besides proof of distribution of the updated Contingency Plan info. I will get back to you on that.
