

EQ Hands Across the Water meeting - 12/8/11

EA - Gene Giephy - 8 1/2 x 11 sheets on each container. Generator's vendors cooperating. not shipping non-DOT approvable criteria
to Jim

Robert Mulholland - update for 2012 - changes to Tampa facility. 2011 - lot of facility improvements - changing to Class 1 Bay.
Had audit from petroleum ind. vendor.
Make bay "spark-free" need permit from City.
Change sockets.
Also, resurfacing asphalt on solid waste side.
put \$ in budget for upkeep of surfaces.

Doris Hymen if you not changing anything, doesn't need (ERP permit)

Robert build permanent secondary containment for trailers w/ haz waste. Will build permanent berms.

DH Addtl impervious?

RM No. Also bldg permanent closers / openers on gates.

That's it for 2012.

We've been asked to come up w/ 2-5 yr plan for facility.

In looking at 50 ft. looking to add treatment.

Costly to move drums to Detroit.

Stabilization of metals, D2 [corrosives/acids/bases] not ~~the~~ organics.

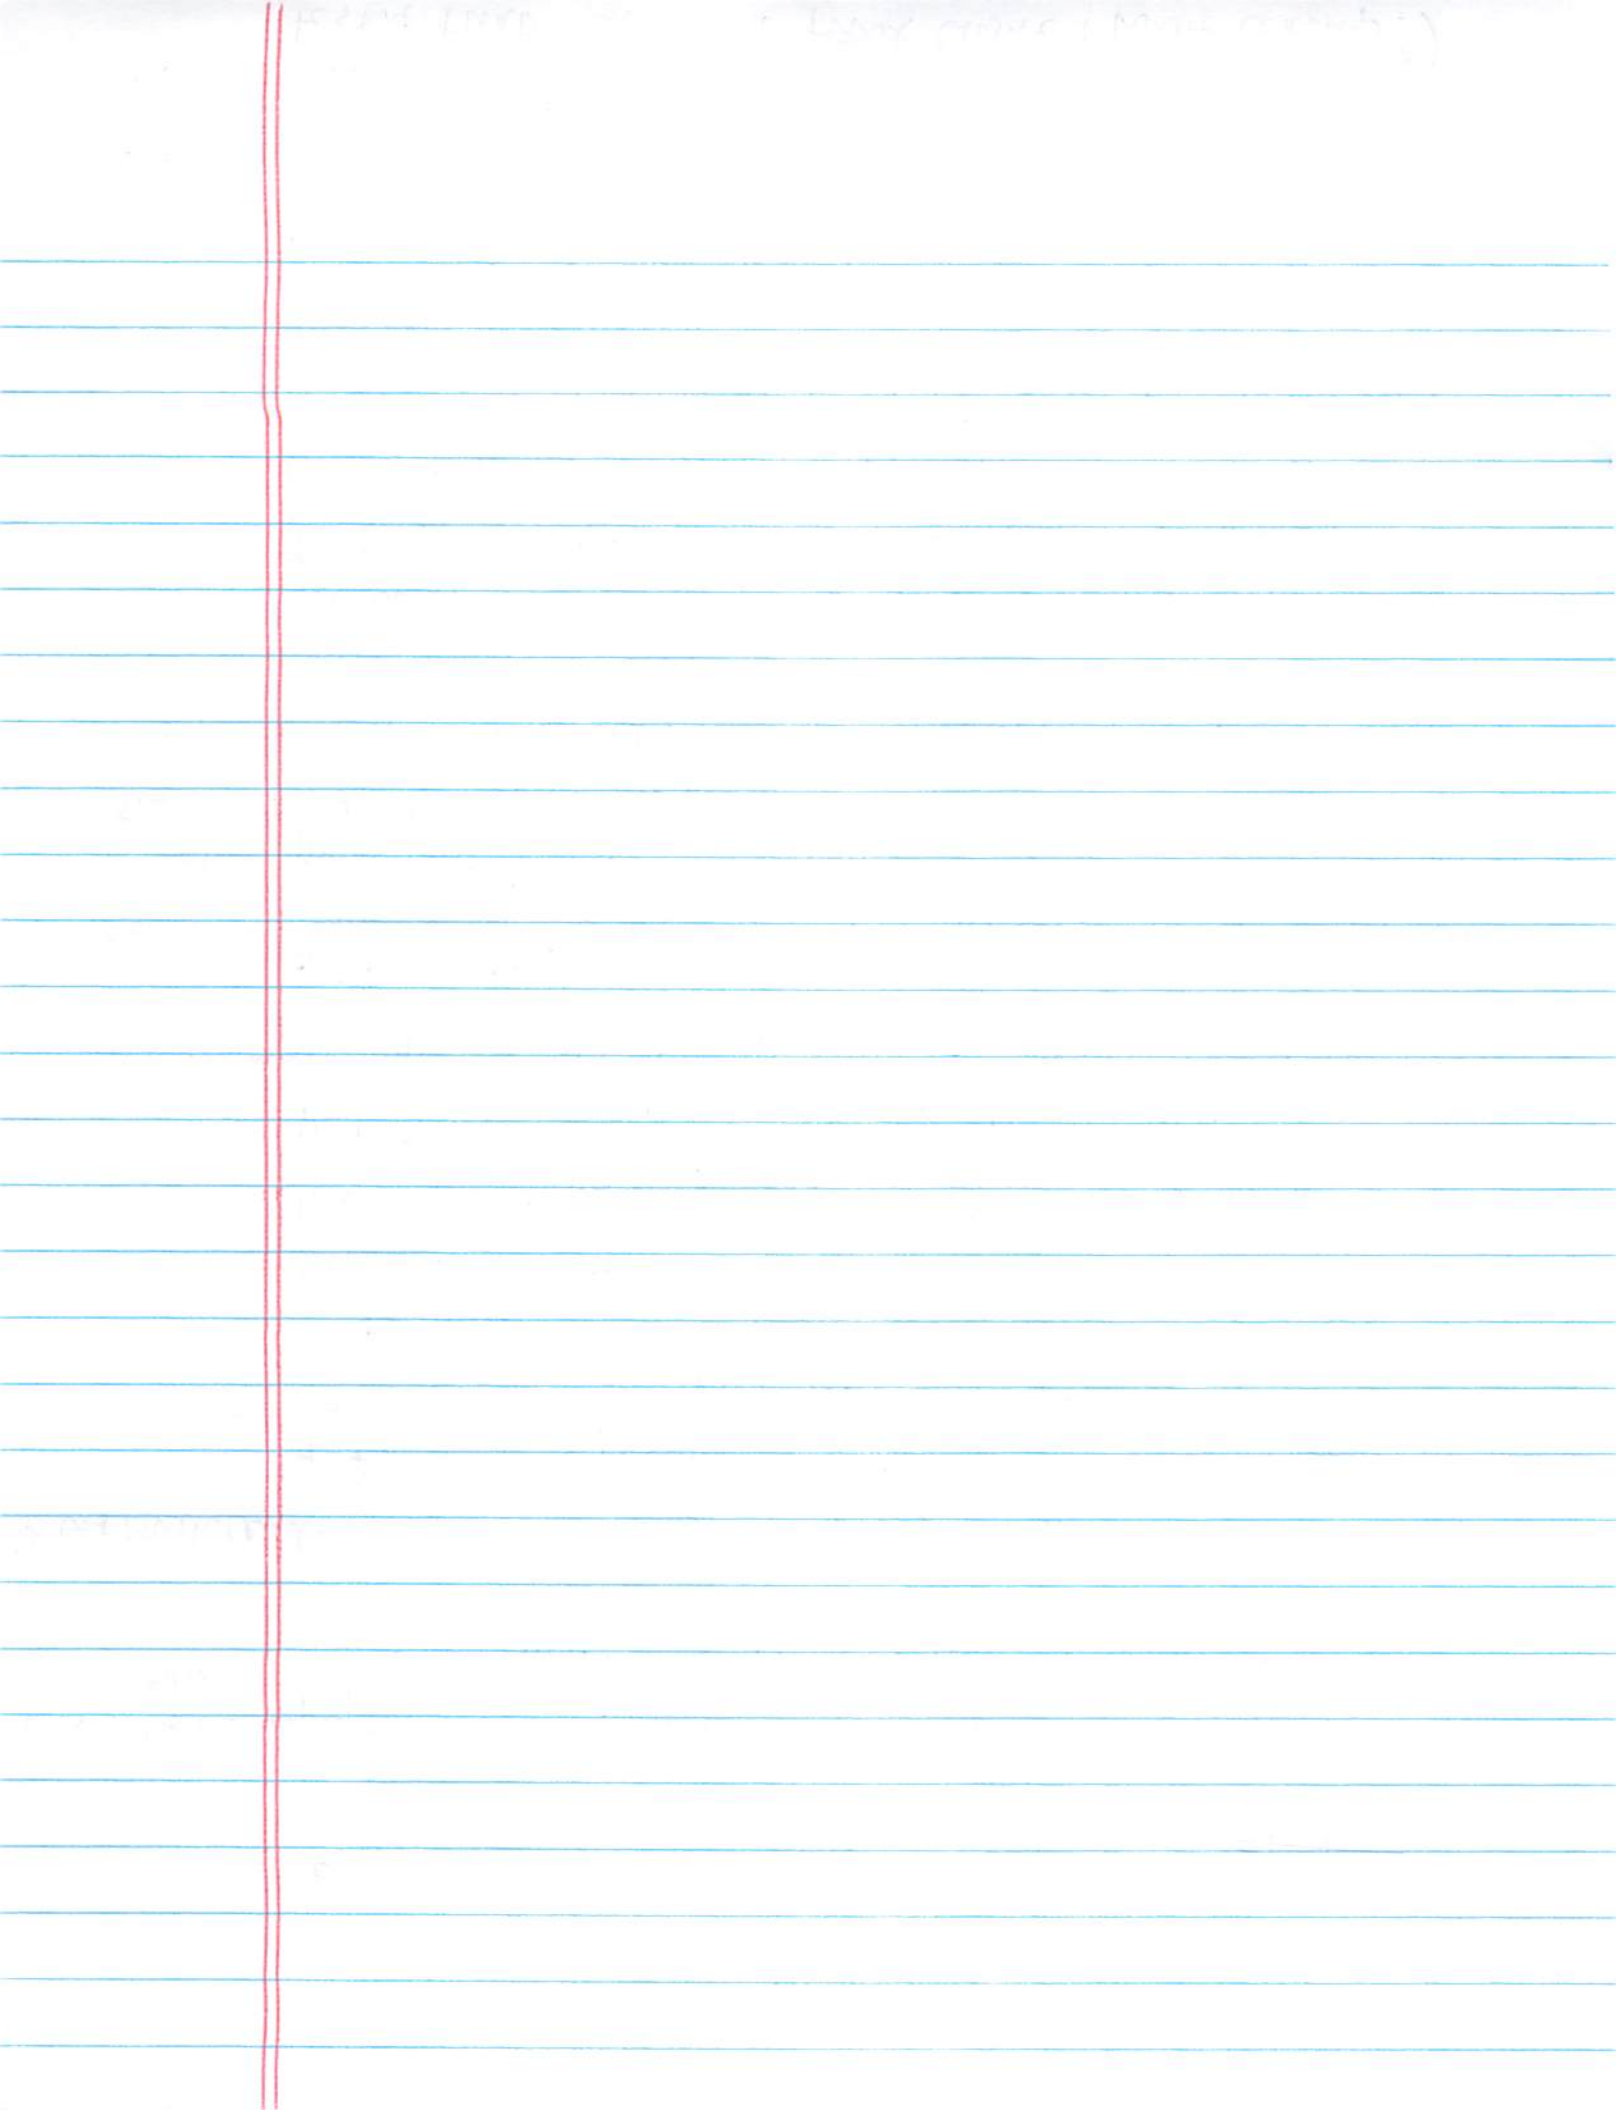

We'd have to relocate solid waste stuff.

Looking to expand north (Festive Floats).

JD ^{where} Are you looking to expand Haz treatment?

RM we're not sure.

Festive float submitted final closure (Waste clamp?)

RM

JD

When you get an idea of what you're thinking of doing please schedule a pre-opp.

RM

figure out ~~solid~~ waste ^{has} been put in solid waste.

GC

thru figure out process how don't want to expand solid waste treatment - just move location

JD

Waste interested in 1) where + 2) how

GC

We do a lot of cleaners - we want to neutralize. Easier to do it here than to transport.

RM

VPP - Stuart

SS

Voluntary Protection Program - OSHA, Get company committed to safety.

RM

~~Has~~ Improves EQ's health, safety + image.

they send surveys to employees - takes 1 yr. 2012.

OSHA will look at PPE, ladder programs.

JD

Could have effect on permit?

GC

Yes.

JD

Traffic patterns, loading docks, ~~etc~~ entrances. - usually that OSHA changes after accident

RM

2013. DOT container - improvement EQ focusing attention on it.

GC

30-35 random driver inspections

Driver certified on what type of truck - multiple DOT classes

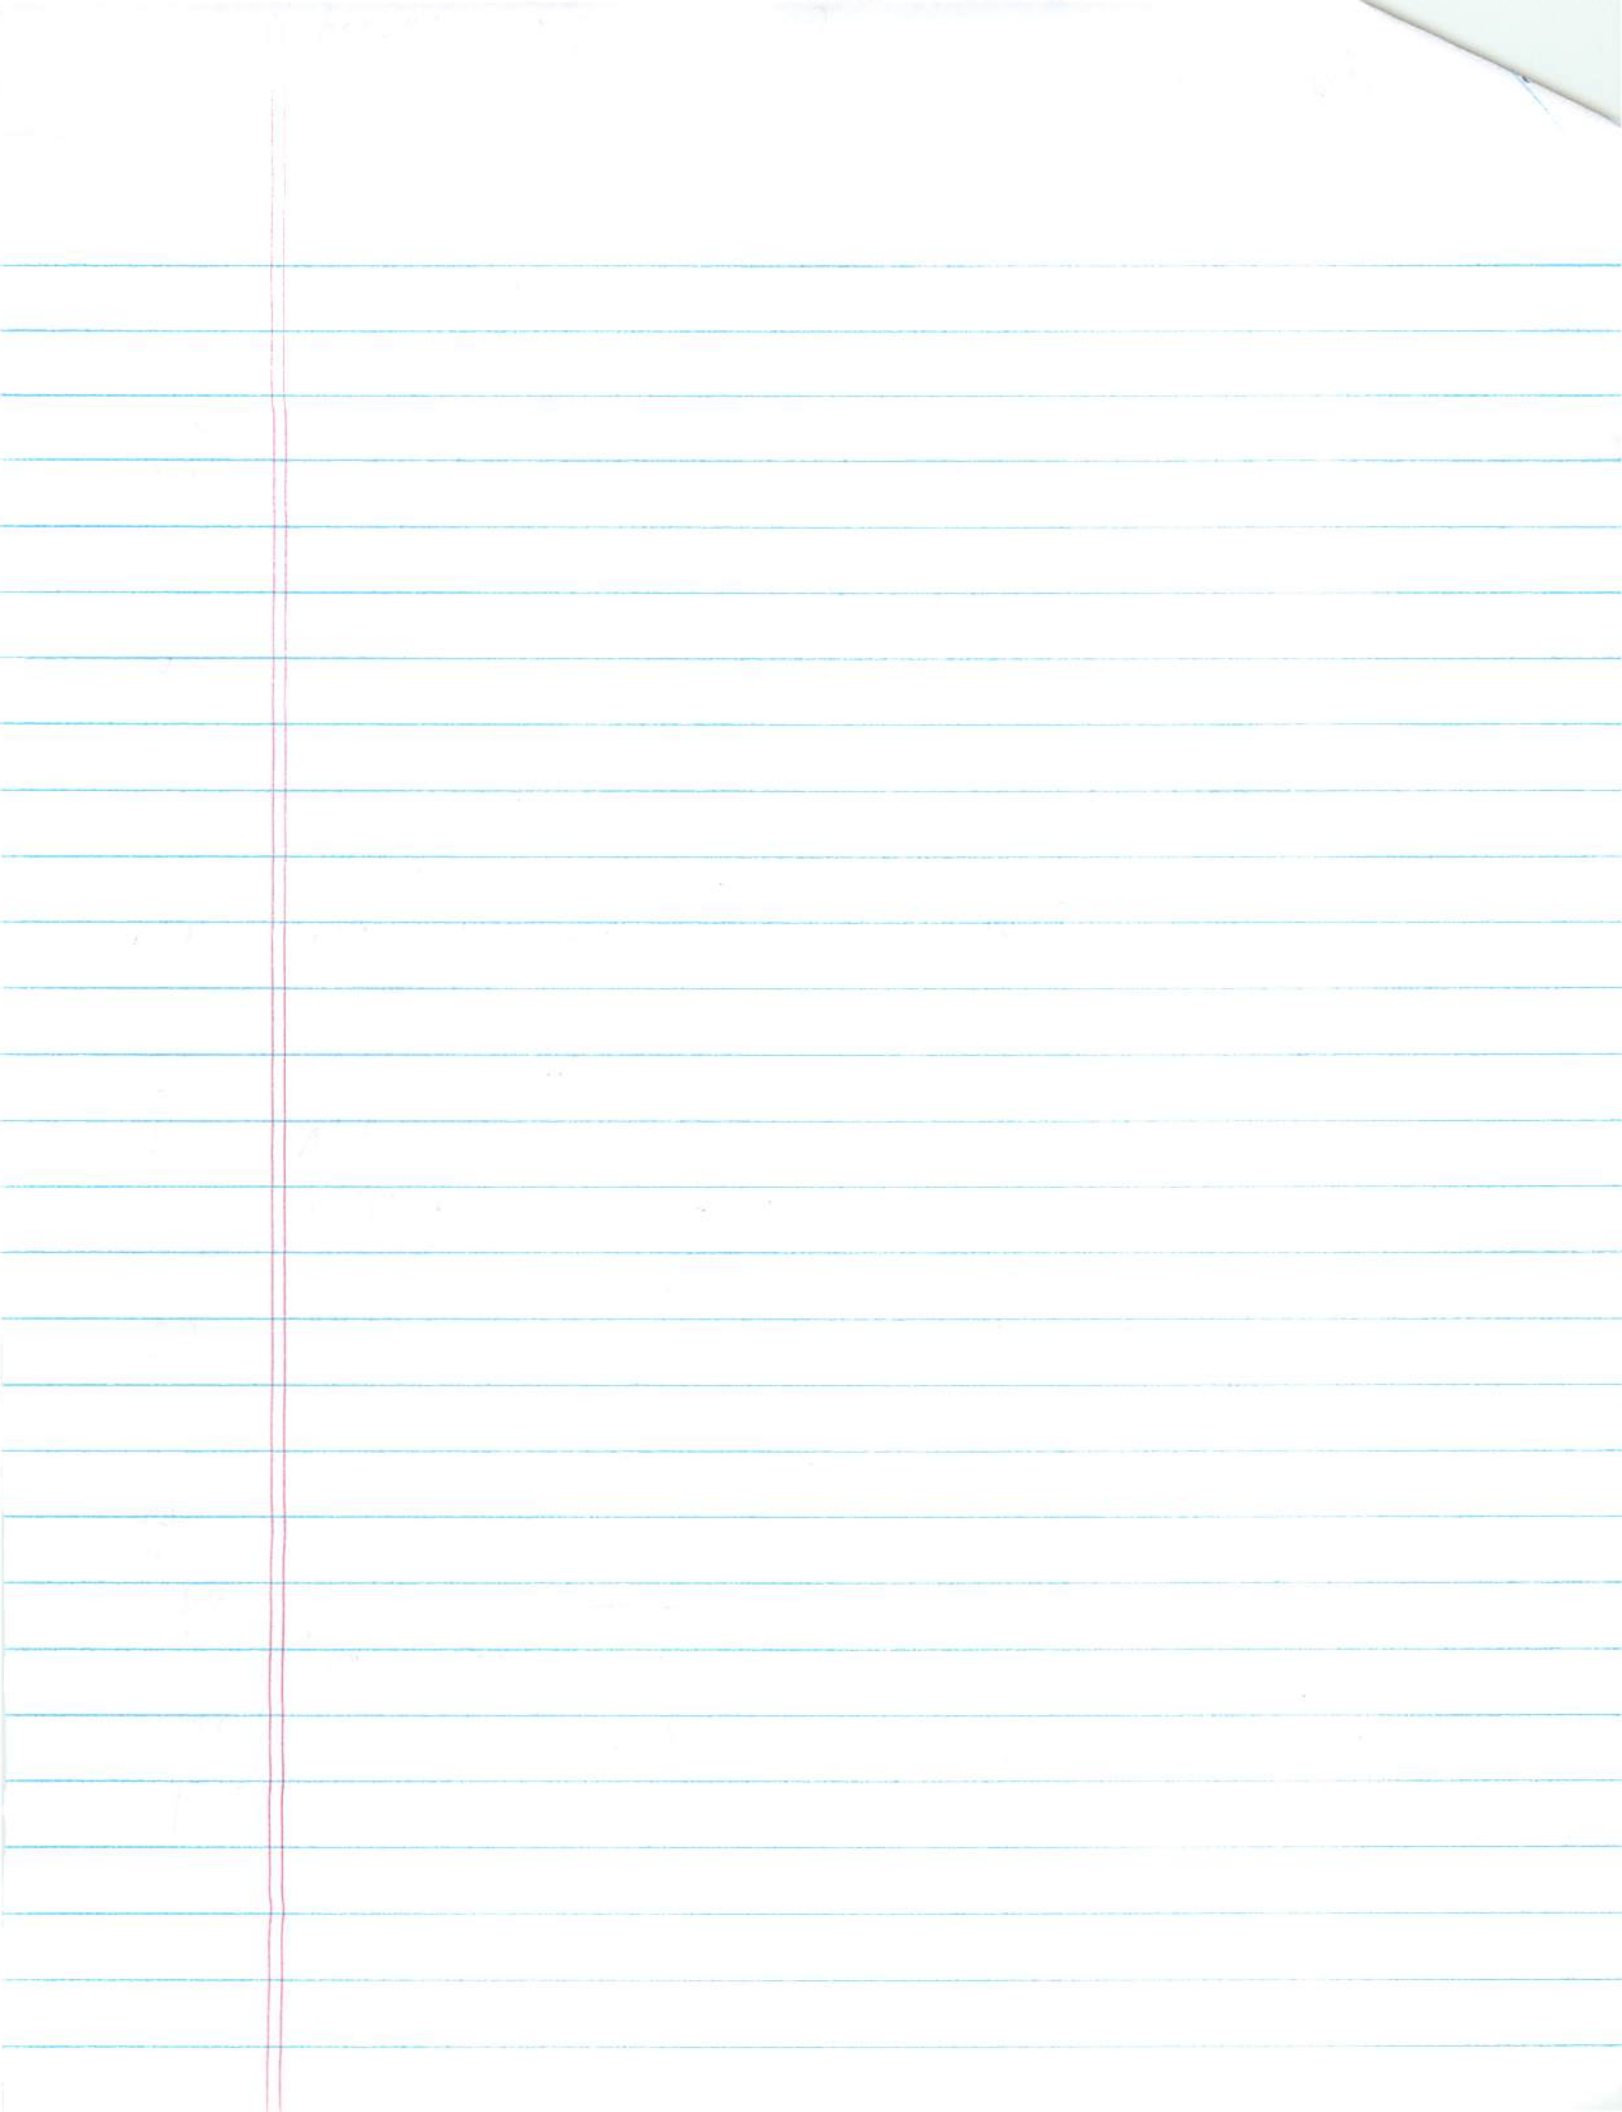

RM

Consistency between EQ facility. Texas, GA, MI, FL ^{to material}

GC

Floor ~~coating~~ in facility. Have MSDS ^{of warehouse}

over XMS. One bay at a time. Over 2-3 days, keep them on trucks while coating.

JD How many trailers stored behind office?
GC Use "fishery" to store supplies. Relieved
Congestion on property at Facility.
Box trucks, vac trucks, etc.

RM Try to find property on Ft. Lauderdale.
EEI stricycle + Heritage in Tampa. Didn't empty at sitting reg.
Orlando

ED (discussion re: sitting)

GDH Permanent stormwater system - complete?

SS On Ave is complete. Orient Rd. isn't.

Can we put in just a tank?

AM What would happen after treatment?

SS Let settle 3 days then discharge?

DH

AM

ERP based on presumptive ~~off~~ criteria. we have ability
to raise alternate design criteria but you have
to demonstrate treatment. Will send to Tally
Send preliminary before you invest. May need IW permit
IW has more ability to be flexible.

GC

In Michigan, we had combined storm/sanitary.

SS

Subtract heat vent WTP (Storm tank)

RM

Meth labs - County's contract are allowing us to handle waste.

JD

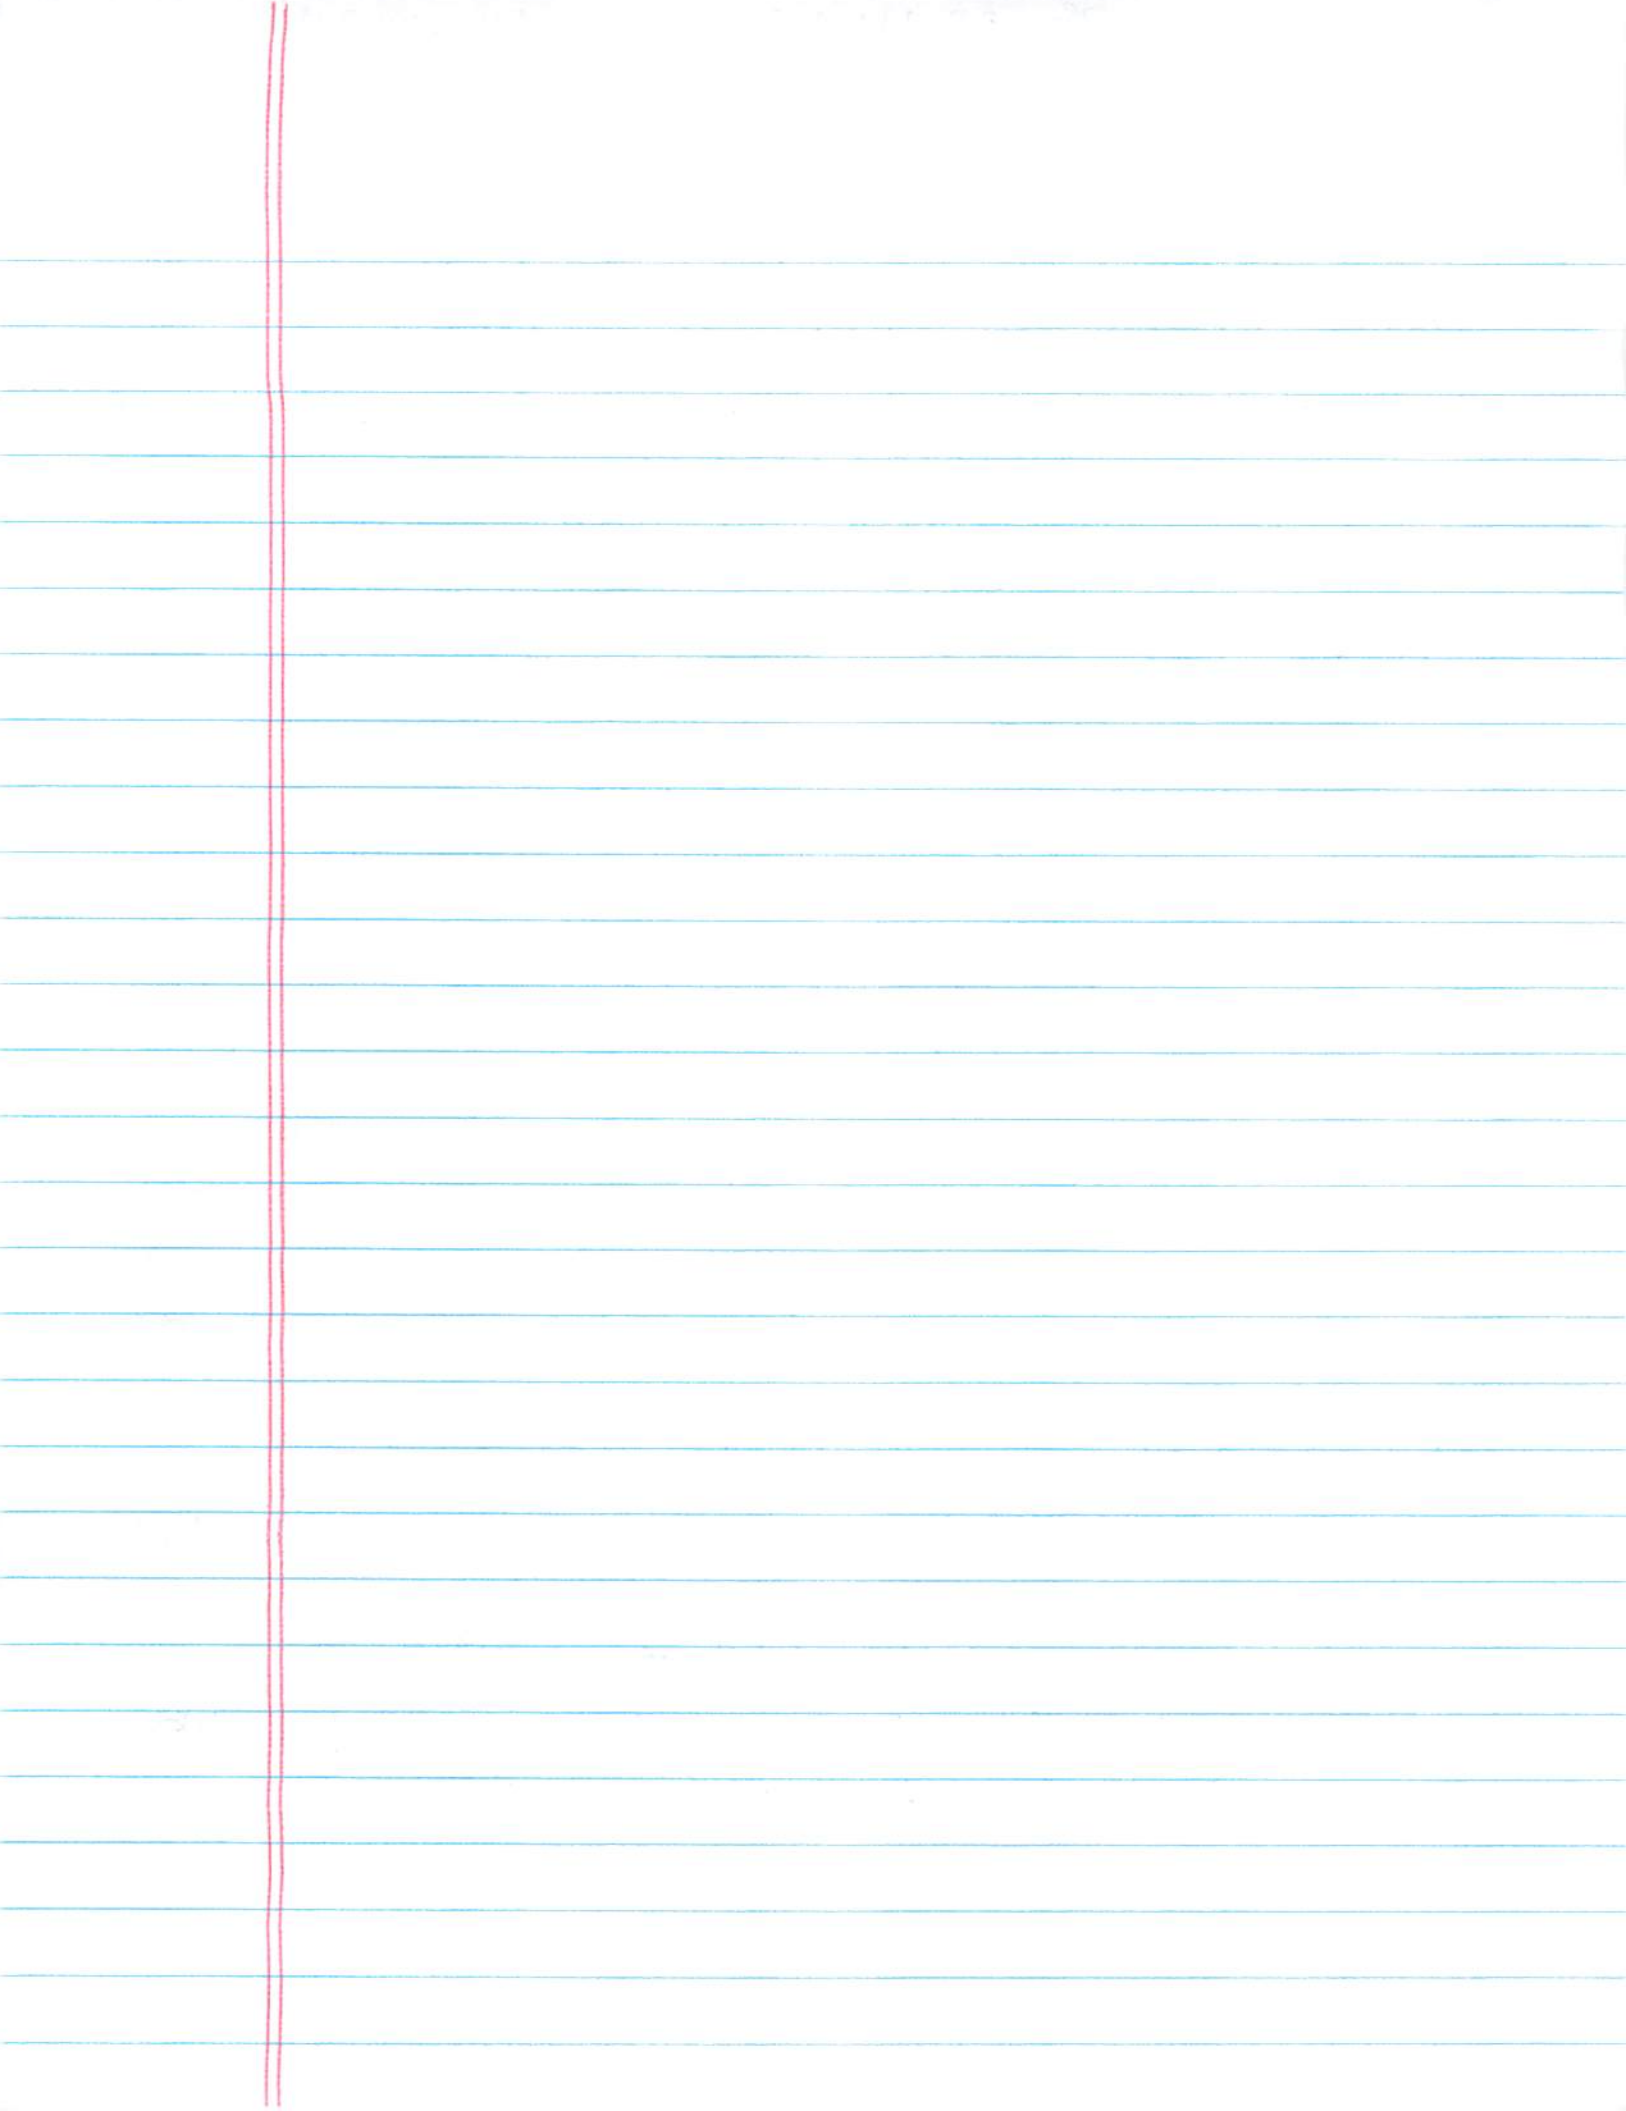

Some HHW's are authorized to take waste from CESQG's.

1) Waste from meth labs is business (illegal)

2) How much is it? < 220 lbs most of time it is.

∴ Meth lab is CESQG police can handle it (don't need
EPA ID) to County if it can take it.

We don't hear about all meth lab cases.

JD

Some with lbs are big SOG need EPA ID #.

GC

don't know stage of PH - development

JD

Concerned about price vehicle - being up. Safety concerns
Fire Dept / Explosive Ordnance usually respond.
