Neenah, WI 54956-9611

The Florida Department of Environmental Protection has reviewed your application for registration as a transporter or handler for universal waste lamps and devices destined for recycling. Based on the information received, the facility located at **3023 Dial Street, Whistler, AL 36612** has been registered through **March 1, 2013** with the following status:

Facility ID # **ALD071951628**
Transporter of Universal Waste Lamps and Devices
Transfer Facility for Universal Waste Lamps
Transfer Facility for Universal Waste Devices
Small Quantity Handler Facility for Universal Waste Lamps and Devices
(Less than 2,000kg of Lamps (8,000) and/or 100kg of Devices for 1 Year)

The registration form for the year **2013** will be sent to the contact person on your application.

Chapter 62-737, Florida Administrative Code (F.A.C.), (copy enclosed) specifies several other requirements including packaging, training and record keeping for transporters and handlers of and reverse distribution programs for universal waste lamps or devices destined for recycling. These requirements are simple, flexible and make good business and environmental sense (summarized on enclosed fact sheets).

This registration does not allow you to transport or handle universal waste lamps or devices which are destined for landfill or other disposal. The transportation or handling of universal waste lamps or devices destined for disposal is subject to our hazardous waste management regulations under Chapter 62-730, F.A.C.

If any of your facility's information on the Universal Waste Lamp and Device Transporter and Handler Registration Form changes, please notify me at Mail Stop 4555 at the address above. I can also be contacted at (850) 245-8759 or at Laurie.Tenace@dep.state.fl.us.

Sincerely,

Laurie Tenace
Environmental Specialist

9. Type of Regulated Waste Activity (Mark 'X' in all that apply):**A. Hazardous Waste Activities:****(1) Generator of Hazardous Waste**

(Choose only one of the following three categories.)

- a. Large Quantity Generator (LQG):
Generates in any calendar month 1,000 kilograms or greater per month (kg/mo) (2,200 lbs.) of *non-acute* hazardous waste; or Greater than 1 kg (2.2 lbs) of *acute* hazardous waste
- b. Small Quantity Generator (SQG):
Generates in any calendar month greater than 100kg/mo but less than 1,000 kg/mo (>220 to <2,200 lbs.) of *non-acute* hazardous waste and/or 1 kg (2.2 lbs) or less of *acute* hazardous waste
- c. Conditionally Exempt SQG (CESQG):
Generates in any calendar month 100 kg/mo or less (220 lbs.) of *non-acute* hazardous waste and 1 kg (2.2 lbs) or less of *acute* hazardous waste

In addition, indicate other generator activities that apply.

- d. United States Importer of hazardous waste
- e. Mixed Waste (hazardous and radioactive) Generator

For Items 2 through 7, mark 'X' in all that apply.

(2) Treater, Storer, or Disposer of Hazardous Waste

(at your facility) Note: A hazardous waste permit may be required for this activity.

- a. Operating Commercial TSD
- b. Operating Non-commercial TSD
- c. Non-operating: Postclosure or Corrective Action Permit or Consent Order (HSWA, etc.)

(3) Recycler of Hazardous Waste (at your facility)Specify: Commercial; Non-Commercial.

A permit is required for storage prior to recycling.

(4) Exempt Boiler and/or Industrial Furnace

- a. Small Quantity On-site Burner Exemption
- b. Smelting, Melting, and Refining Furnace Exemption

(5) Person Authorized to Manage Conditionally Exempt Waste

Generated at Other Facilities - Choose this management activity ONLY if you attach EITHER a copy of your application for such authorization OR the authorization you received from FDEP.

(6) Underground Injection Control - Mark an 'X' even if the UIC well at your facility does not receive hazardous waste.**(7) Transporter of Hazardous Waste [Note: A Certificate of Liability Insurance is required along with this registration.]**Registration must be renewed annually. a. For own waste only b. For commercial purposes**c. Hazardous Waste Transporter Insurance Information**

Insurance Company _____

Address _____

Contact _____

Telephone _____

Policy Number _____

Expiration date _____

d. Transportation Mode Air Rail Highway Water Other - specify _____e. Hazardous Waste Transfer Facility:

Storage Volume _____

 Initial notification

The following items are required to be submitted with the initial notification for a transfer facility [Rule 62-730.171(3), Florida Administrative Code (F.A.C.)]:

- Certification by a responsible corporate officer of the transporter that the proposed location satisfies the criteria of Section 403.7211(2), Florida Statutes (F.S.) [Rule 62-730.171(3)(a)1., F.A.C.]
- Evidence of the transporter's financial responsibility [Rule 62-730.171(3)(a)3., F.A.C.]
- A brief general description of the transfer facility operations [Rule 62-730.171(3)(a)4., F.A.C.]
- A copy of the facility closure plan [Rule 62-730.171(3)(a)5., F.A.C.]
- A copy of the contingency and emergency plan [Rule 62-730.171(3)(a)6., F.A.C.]
- A map or maps of the transfer facility [Rule 62-730.171(3)(a)7., F.A.C.]
- Notification of changes in above items
- Annual update notification

B. Universal Waste (UW) Activities (Mark 'X' in all that apply) ("accumulated" means at any one time):

- Large Quantity Handler (LQH) = 5,000 kg (11,000 lb) or more of any combination of UW accumulated
- Small Quantity Handler (SQH) = always less than 5,000 kg accumulated

- Mercury-containing devices LQH = 100 kg (220 lb) or more accumulated by for-hire handler
- Mercury-containing devices SQH = less than 100 kg accumulated by for-hire handler
- Mercury-containing lamps LQH = 2,000 kg (4400 lbs/8,000 lamps) or more accumulated by for-hire handler
- Mercury-containing lamps SQH = less than 2,000 kg (8,000 lamps) accumulated by for-hire handler
 [Note: 4 lamps = 1 kg, 62-737.200(10)]
- Pharmaceuticals LQH = 5,000 kg or more of universal pharmaceutical waste (UPW) accumulated
- Pharmaceuticals LQH = more than 1 kg (2.2 lb) of acutely hazardous ("P-listed") pharmaceutical waste accumulated
- Pharmaceuticals SQH = always less than 5,000 kg of UPW and always 1 kg or less of acutely hazardous UPW accumulated

(1) For those Managing	Generate/ Accumulate	Transport (see note in instructions)	Handle at Transfer Facility	(2) Enter your estimate of the maximum amount (in pounds) of each type of UW on site or transported at any one time.
a. Batteries	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	3800
b. Pesticides	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	500
c. Pharmaceuticals	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
d. Mercury Containing Devices	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	500
e. Mercury Containing Lamps	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	1500

(3) Mercury Recovery and/or Reclamation Facility [Chapter 62-737, F.A.C.] Note: A hazardous waste permit is required for this activity. [Rule 62-737.800, F.A.C.]

(4) Reverse Distributor of UW Pharmaceuticals Lamps Devices

(5) Destination Facility for UW Note: for this activity, a facility must treat, dispose or recycle a UW. A permit is required for storage prior to recycling.

C. Used Oil Activities:

- (1) Used Oil Transporter - indicate type(s) of activity(ies):
- a. Transporter
 - b. Transfer Facility
- (2) Collection Center
- (3) Used Oil Processor (A permit is required for this activity.)
- (4) Off-Specification Used Oil Burner
- (5) Used Oil Fuel Marketer
- (6) Used Oil Filter
- a. Transporter
 - b. Transfer Facility
 - c. Processor
 - d. End User

(8) Specific Certification to be signed by all Used Oil Transporters
 I certify as a Used Oil Transporter that the training program and financial responsibility required under Section 62-710.600, F.A.C., are in place, current and being adhered to. If any modifications have been made to the originally approved training program, they are explained in attachments to this registration form. Evidence of financial responsibility is demonstrated by the attached Used Oil Transporter Certificate of Liability Insurance, DEP form 62-710.901(4), F.A.C.

Adam Hooyman / JJ Keller / Auth Agent
 Signature of Authorized Person

Adam Hooyman/JJ Keller/Auth Agent
 Print Name of Authorized Person

(7) Used Oil Transporters, Transfer Facilities, Collection Centers, Off-Specification Burners and Marketers must pay an annual \$100 registration fee. Used Oil Processors are exempt from this fee. If applicable, enclose a check or money order, in the amount of \$100, payable to Florida Department of Environmental Protection.
 A check is enclosed.

(9) The records required under the provisions of Rule 62-710.510, F.A.C., are kept at (check one):

- our mailing (business) address
- The site (facility) address

D. Other State Regulated Waste Activities: **Petroleum Contact Water (PCW) Handler** [Chapter 62-740, F.A.C.]
 Note: A water facility permit may be required for this activity.

10. Waste Codes for Federally Regulated Hazardous Wastes: List the waste codes of the Federal hazardous wastes handled at your facility. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Hazardous waste transporters list codes routinely or usually transported. Use an additional page if more spaces are needed.

1	D001	2	D004	3	D005	4	D006	5	D007	6	D008	7	D009

POLICY NUMBER: ISA H08692397

JAN 25 2012

ENDT. #1

BSHW

U.S. Department of Transportation
Federal Motor Carrier Safety Administration

ENDORSEMENT FOR
MOTOR CARRIER POLICIES OF INSURANCE FOR PUBLIC LIABILITY
UNDER SECTIONS 29 AND 30 OF THE MOTOR CARRIER ACT OF 1980

Form Approved:
OMB No: 2126-0008

Issued to Safety-Kleen Systems, Inc. of 5360 Legacy Drive; Building 2, Suite 100; Plano, TX 75024
Dated at Wilmington, DE this 31st day of August, 20 11
Amending Policy No. ISA H08692397 Effective Date 09/01/2011
Name of Insurance Company ACE American Insurance Company
Countersigned by [Signature] Authorized Company Representative

The policy to which this endorsement is attached provides primary or excess insurance, as indicated by "[X]," for the limits shown:
 This insurance is primary and the company shall not be liable for amounts in excess of \$ 3,000,000 for each accident.
 This insurance is excess and the company shall not be liable for amounts in excess of \$ _____ for each accident in excess of the underlying limit of \$ _____ for each accident.

Whenever required by the Federal Motor Carrier Safety Administration (FMCSA), the company agrees to furnish the FMCSA a duplicate of said policy and all its endorsements. The company also agrees, upon telephone request by an authorized representative of the FMCSA, to verify that the policy is in force as of a particular date. The telephone number to call is: 215-640-4555

Cancellation of this endorsement may be effected by the company of the insured by giving (1) thirty-five (35) days notice in writing to the other party (said 35 days notice to commence from the date the notice is mailed, proof of mailing shall be sufficient proof of notice), and (2) if the insured is subject to the FMCSA's registration requirements under 49 U.S.C. 13901, by providing thirty (30) days notice to the FMCSA (said 30 days notice to commence from the date the notice is received by the FMCSA at its office in Washington, D.C.)

DEFINITIONS AS USED IN THIS ENDORSEMENT

Accident includes continuous or repeated exposure to conditions or which results in bodily injury, property damage, or environmental damage which the insured neither expected nor intended.
Motor Vehicle means a land vehicle, machine, truck, tractor, trailer, or semitrailer propelled or drawn by mechanical power and used on a highway for transporting property, or any combination thereof.
Bodily Injury means injury to the body, sickness, or disease to any person, including death resulting from any of these.
Property Damage means damage to or loss of use of tangible property.
Environmental Restoration means restitution for the loss, damage, or destruction of natural resources arising out of the accidental discharge, dispersal, release or escape into or upon the land, atmosphere, watercourse, or body of water, of any commodity transported by a motor carrier. This shall include the cost of removal and the cost of necessary measures taken to minimize or mitigate damage to human health, the natural environment, fish, shellfish, and wildlife.
Public Liability means liability for bodily injury, property damage, and environmental restoration.

The insurance policy to which this endorsement is attached provides automobile liability insurance and is amended to assure compliance by the insured, within the limits stated herein, as a motor carrier of property, with Sections 29 and 30 of the Motor Carrier Act of 1980 and the rules and regulations of the Federal Motor Carrier Safety Administration (FMCSA).

In consideration of the premium stated in the policy to which this endorsement is attached, the insurer (the company) agrees to pay, within the limits of liability described herein, any final judgment recovered against the insured for public liability resulting from negligence in the operation, maintenance or use of motor vehicles subject to the financial responsibility requirements of Sections 29 and 30 of the Motor Carrier Act of 1980 regardless of whether or not each motor vehicle is specifically described in the policy and whether or not such negligence occurs on any route or in any territory authorized to be served by the insured or elsewhere. Such insurance as is afforded, for public liability, does not apply to injury to or death of the insured's employees while engaged in the course of their employment, or property transported by the insured, designated as cargo. It is understood and agreed that no condition, provision, stipulation, or limitation contained in the policy, this endorsement, or any other endorsement thereon, or violation thereof, shall relieve the company from liability or from the payment of any final judgment, within the limits of liability herein described, irrespective of the financial condition, insolvency or bankruptcy of the insured. However, all terms, conditions, and limitations in the policy to which the endorsement is attached shall remain in full force and effect as binding between the insured and the company. The insured agrees to reimburse the company for any payment made by the company on account of any accident, claim, or suit involving a breach of the terms of the policy, and for any payment that the company would not have been obligated to make under the provisions of the policy except for the agreement contained in the endorsement.

It is further understood and agreed that, upon failure of the company to pay any final judgment recovered against the insured as provided herein, the judgment creditor may maintain an action in any court of competent jurisdiction against the company to compel such payment.

The limits of the company's liability for the amounts prescribed in this endorsement apply separately to each accident and any payment under the policy because of any one accident shall not operate to reduce the liability of the company for the payment of final judgments resulting from any other accident.

THE SCHEDULE OF LIMITS SHOWN ON THE REVERSE SIDE DOES NOT PROVIDE COVERAGE. The limits shown in the schedule are for information purposes only.

**SCHEDULE OF LIMITS
PUBLIC LIABILITY**

Type of carriage	Commodity transported	Jan. 1, 1985
(1) For-hire (In interstate or foreign commerce, with a gross vehicle weight rating of 10,000 or more pounds).	Property (nonhazardous)	\$ 750,000
(2) For-hire and Private (In interstate, foreign, or intrastate commerce, with a gross vehicle weight rating of 10,000 or more pounds).	Hazardous substances, as defined in 49 CFR 171.8, transported in cargo tanks, portable tanks, or hopper-type vehicles with capacities in excess of 3,500 water gallons; or in bulk Divisions 1.1, 1.2, and 1.3 materials, Division 2.3, Hazard Zone A, or Division 6.1, Packing Group 1, Hazard Zone A material; in bulk Division 2.1 or 2.2; or highway route controlled quantities of a Class 7 material, as defined in 49 CFR 173.403.	\$5,000,000
(3) For-hire and Private (In interstate or foreign commerce, in any quantity; or in intrastate commerce, in bulk only; with a gross vehicle weight rating of 10,000 or more pounds).	Oil listed in 49 CFR 172.101; hazardous waste, hazardous materials, and hazardous substances defined in 49 CFR 171.8 and listed in 49 CFR 172.101, but not mentioned in (2) above or (4) below.	\$1,000,000
(4) For-hire and Private (In interstate or foreign commerce, with a gross vehicle weight rating of less than 10,000 pounds).	Any quantity of Division 1.1, 1.2 or 1.3 material; any quantity of a Division 2.3, Hazard Zone A, or Division 6.1, Packing Group 1, Hazard Zone A material; or highway route controlled quantities of a Class 7 material as defined in 49 CFR 173.403.	\$5,000,000

**POWER OF ATTORNEY
 LICENSES, PERMITS, TAXES, REPORTS**

State of Texas
 County of Collin

KNOW ALL MEN BY THESE PRESENTS that Safety-Kleen Systems Inc
 _____, an Corporation (Individual, Partnership or
 Corporation) having an office at 5360 Legacy Drive Building 2 Suite #100 Plano TX 75024, acting through the
 undersigned does hereby designate and appoint **J. J. KELLER & ASSOCIATES, INC.**, a Corporation with offices at
 3003 W. Breezewood Lane, Neenah, WI as Attorney-in-Fact for the said Safety-Kleen Systems Inc

for the following limited and special purposes:

To obtain, complete, execute, renew, and deliver applications for fuel, highway use tax, reciprocity, mileage, over
 dimensional and similar permits, licenses, titles, and apportioned licenses of the states of the United States and
 provinces of Canada in which motor vehicles for the carriage of goods or passengers are operated or intended
 to be operated by Safety-Kleen Systems Inc
 and

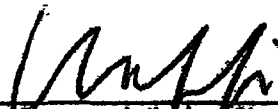

To obtain, complete, execute, renew, and deliver applications for private, exempt, or intrastate authority with the
 various state commissions and/or file authority as granted by the Federal Highway Administration with the various
 state commissions in which motor vehicles for the carriage of goods or
 passengers are operated or intended to be operated by Safety-Kleen Systems Inc
 and

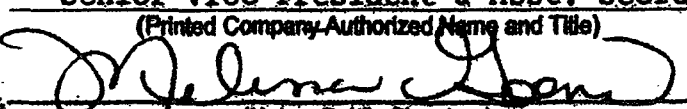

To prepare, execute, and deliver fuel tax, mileage tax, ton-mile tax, and apportioned reports required to be filed
 with the states of the United States and provinces of Canada, and provide audit representation for those taxes and
 reports.

This POWER OF ATTORNEY is restricted and limited to the matters specifically set forth herein for the term beginning
9/1/2011

IN WITNESS WHEREOF Safety-Kleen Systems Inc
 has caused these presents to be executed by a duly authorized officer or owner hereto this 20th
 day of September, 2011.

Sworn to and subscribed before me this
20th day of September, 2011
 My commission expires 3/23/2012
Collin, Texas

OPERATIONS

Purpose:

Division/Department: Transportation
Procedure: O220-002_OC220-002
Revision: 8
Revision Date: **July 16, 2009**
Supersedes: June 4, '09
Issue Date: 5/22/95
Page: 1 of 20
Approved: Rex Dillabough/Bill Ross/Frank Wagner
PROPRIETARY AND CONFIDENTIAL

This procedure provides instructions to all U.S. and Canadian Safety-Kleen truck/route drivers (Over-the-Road and Route drivers, A/C, O/C, Transflo (BIDS) locations, etc.) regarding actions to be taken in the event of a transportation-related incident.

Scope:

This procedure applies to all Safety-Kleen truck/route drivers (Over-the-Road, Route, A/C, O/C, etc.) in the U.S. and Canada.

Responsibilities:

Facility Manager (Branch A/C, O/C, D/C Managers)	Facility Managers will be responsible for implementing this procedure when incidents involving transportation occur, completing any accident reports deemed necessary and assisting EHS Managers with their investigation.
Truck/Route Drivers	Truck Drivers are responsible for knowing the procedures to be followed in the Contingency Plan and implementing the plan in the event of an incident, (specific actions to be taken by drivers are addressed below in the procedures).
Environmental Health and Safety (EHS) Managers/ Transportation Compliance Managers	After being contacted by Infotrac, EHS Managers, in conjunction with the Transportation Compliance Managers, are responsible for consulting with the drivers to assist them with clean-up of incidental releases; determining whether an emergency Regulatory ID Number is necessary prior to moving clean-up materials and wastes from the site; ensuring the contaminated equipment used in the clean-up is decontaminated; determining whether notifications to regulatory agencies are required and who should make the notification; determining whether written reports to regulatory agencies are required; and notification of the Safety-Kleen Non-Conforming Waste Specialist as appropriate.

Definitions:

Incident	The release of product or waste, including vapor releases, from its container, or a vehicle accident, which causes property damage, injuries, or death.
Incidental Release	An incidental release is a release of material which: has not reached the environment; and is a small quantity of a known material; and the driver has knowledge of the potential hazards of the material and the protective precautions and equipment to use to safely address the release; and can be stopped by the driver alone (no assistance needed); and adequate equipment is readily available in the truck spill kit to protect the driver, and contain and clean up the released material.
Infotrac	Infotrac is a 24-hour incident tracking service retained by Safety-Kleen. As specified in the Transportation Contingency Plan (SK Transportation Policies and Procedures, Section 5), Infotrac is to be contacted in the event of an incident.
Vehicle Accident	For the purpose of this plan, a vehicle accident is an incident where there is no release of material, but there is property damage, injuries or death.
Significant/ Non-Incidental Release	A release of material that does not meet the definition of "incidental release."

Overview:

This Plan is to be followed both when:

1. There is release of product or waste, or a traffic accident which causes property damage, injuries or death; and
2. The incident occurs at a non-Safety-Kleen site.

If an incident occurs:

1. At a Safety-Kleen facility, the applicable facility Contingency Plan should be followed; if the facility Plan is not accessible, follow this Plan; or
2. At a customer facility, Transflo (BIDS) location or other third party rail site, use their facility contingency plan; if the customer's plan is not accessible, use this Plan.

Procedures:

TRANSPORTATION CONTINGENCY PLAN

The following are procedures to be followed by drivers (and EHS Managers) in the event of a transportation-related incident.

1. Protect Yourself/Provide Assistance to Injured

- a) Protect yourself, and then others if it will not jeopardize your personal safety. Resist the urge to rush in; you cannot help others until you know what you are facing.
- b) Do not move the injured if it could cause additional injury.

2. Secure Site

- a) **Ensure that there is No Smoking in the incident area.**
- b) While maintaining a safe distance from the spill, prevent access to individuals not familiar with the hazards of the material released.
- c) If the incident involves vehicles, erect safety reflectors (as required by U.S. Department of Transportation (DOT) or Canadian Federal or Provincial Transportation Regulations).

3. Assess the Situation ****Only if it is safe to do so****

- a) Review the shipping papers, manifests, placards, S-K prequalification documents, or service documents to identify the material(s) released and their hazards.
- b) Estimate the quantity of material(s) released.
- c) Identify the source and location of the release.
- d) Evaluate the extent of property damage or injuries, and determine whether it is safe to approach the injured.
- e) For incidents in the U.S. and Canada, consult the Emergency Response Guidebook (ERG). The ERG provides basic hazard information regarding released materials.

4. Determine if there is an "incidental" or "significant/non-incidental" release

- a) An **incidental release** is a release which:
 - i. Has not reached the environment (soil or surface water); **and**
 - ii. Is a small quantity of a known material; **and**
 - iii. The driver has knowledge of the potential hazards of the material, and the protective precautions and equipment to use to safely address the release; **and**
 - iv. Release from the source can be stopped by the driver alone (no assistance needed); **and**
 - v. Adequate equipment is readily available in the truck spill kit or at the incident site to protect the driver, and contain and clean up the released material.
- b) **ACTION TO BE TAKEN IF THE INCIDENT IS AN "INCIDENTAL RELEASE":**
 - i. Review the emergency information to determine proper protective equipment.
 - ii. Do not jeopardize your personal safety at any time.
 - iii. Don the protective equipment before approaching the incident area.
 - iv. If possible, stop the source and migration of the release (close valve, upright drum, cover any storm drains, etc.).
 - v. **Conduct the immediate notification procedure noted in Section 5 below.**
 - vi. After consultation with the EHS Manager, clean up the release.
 - vii. The EHS Manager must determine if an emergency Regulatory ID number is necessary prior to moving clean-up materials and waste from the site.
 - viii. All contaminated clean-up equipment and sorbent is to be placed in a container and secured on the truck for return to the vehicle's base facility.
 - ix. Ensure that all equipment is decontaminated in accordance with the facility Contingency Plan, and the spill kit is re-stocked.
 - x. See Section 9 for required spill kit items.
- c) A **significant release** is a release which does not meet the definition of incidental release as defined above in "a".

d) **ACTION TO BE TAKEN IF THE INCIDENT IS A "SIGNIFICANT/NON-INCIDENTIAL" RELEASE:**

- i. If possible, take defensive action to prevent further spreading of the release. However, **maintain a safe distance from the released material.**
- ii. If possible, take defensive action to protect sensitive areas (block release route to storm drains, soil, and surface water, with booms and storm drain covers). **Maintain a safe distance from the release.**
- iii. **Conduct the immediate notification procedure noted in Section 5 below.**
- iv. Wait for professional emergency response assistance to arrive.
- v. When assistance arrives, provide as much information as possible to the responders.

5. Immediate Notification

- a) If the incident is an emergency situation (fire, explosion, injuries, etc.), call 911, or "0" in areas without 911 service.
- b) CALL Infotrac AT 1-800-468-1760 as soon as possible. Infotrac is a 24-hour emergency response information service retained by Safety-Kleen.
- c) Answer questions asked by the Infotrac representative in as much detail as possible and provide a phone number where you can be reached. Be prepared to answer all the questions that are listed on the Safety-Kleen Incident Report Form (procedures for completing the incident report form are established in Procedure for Incident Report Form O220-001/OC220-001). Infotrac will immediately contact the applicable Safety-Kleen EHS Manager, as well as the Safety-Kleen Crisis Team, if deemed necessary.
- d) Notify your immediate supervisor, and if there is property damage, injuries, or chemical exposure to you or others, request that your supervisor contact an SK insurance representative as soon as possible.
- e) In Canada, the EHS Manager will contact the provincial and/or local authority as necessary.

If the incident involved transportation arranged by Corporate Logistics or Breslau Transportation, contact the Transportation Department @ (972) 265-2358. In addition, please contact the following, as indicated below:

Rail Incidents:	Rail Transportation Manager @ (972) 265-2359
Over the Road Carriers:	Transportation Manager @ (972) 265-2339
Oil Carriers:	Oil Logistics Manager @ (519) 648-2291

For any incident involving an apparent chemical reaction, i.e. vapor release, pressure build-up, excessive heat, etc., contact the Safety-Kleen Non-Conforming Waste Specialist at the Safety-Kleen Technical Center. The telephone number is 847-468-6600.

For any incident where decontamination of a Safety-Kleen vehicle is required such as a TSCA PCB event, a load where the pH is outside the prescribed parameters, or an accident where there is a spill inside a vehicle, decontamination will be conducted by the local Safety-Kleen facility or the Emergency Responder (at the scene of an off-site incident).

6. Vehicle Accidents

- Notify your immediate supervisor. If there is property damage or injuries, request that your supervisor contact an S-K insurance representative as soon as possible. (Refer to Accident and Injury Claims Reporting Procedures O310-002 or Canadian Accident and Injury Claims Reporting Procedures OC310-002).

Facility Managers should consult your **Regional Transportation Compliance Manager** to ensure proper notifications are made, and drug and alcohol tests are completed, if required.

7. Reporting and Follow-up Notification

- a) The Safety-Kleen **EHS Manager** will determine whether the following notifications are required, and if so who should make the notification:
 - i. U.S. Only: National Response Center;
 - ii. Canada Only: 30 Day Notification to the Director General, Transportation of Dangerous Goods for "dangerous goods incidents" (See TDG Part 8).
 - iii. State Emergency Response Commission or Provincial authority;
 - iv. Local Emergency Planning Committee (Canada equivalent if applicable); and
 - v. Emergency Contractor.
- b) Do not make these notifications without first consulting with the EHS Manager identified by Infotrac.
- c) **A Safety-Kleen Incident Report Form must be completed whenever an incident has occurred (For Incident Report Form procedures, See Procedure for Incident Report Form O220-001, OC220-001).**
- d) When the incident occurs in the US, a **USDOT Spill Report** (Form 5800.1) must be completed for most releases of hazardous materials and any quantity of hazardous waste, while the material is in the course of transportation, including loading, unloading, and temporary transport.

Infotrac is responsible to confirm with the Transportation Compliance Department whether, or not, the incident requires the DOT report to be filed. If the incident is reportable, Infotrac will complete the report. The driver must provide Infotrac with the information needed to complete the form.

8. DOT Shipping descriptions for Materials Most Likely to be Released or Need Alternate Transportation

The Table below provides shipping descriptions for the materials most commonly transported **by SK drivers**. Following the table is information on the management of contaminated oil and vac wastes.

Consult with the EHS Manager to determine whether additional written reports are necessary to the State/Provincial Environmental Agency, U.S. National Response Center, State Emergency Response, or local Emergency Response (and equivalent Canadian Agencies).

PRODUCT/ MATERIAL	DOT DESCRIPTION	EPA CODES	TDG DESCRIPTION
SPILL CLEAN-UP AND REMEDIATION DEBRIS FROM SK PRODUCT SPILLS			
CORE PRODUCTS			
Safety-Kleen 105 Solvent (Recycled)	UN3175, Waste Solids Containing Flammable Liquid, n.o.s. (Petroleum distillates), 4.1, PGII, RQ (D001)(ERG# 133)	D001, D018, D039, D040	WASTE SOLIDS CONTAINING FLAMMABLE LIQUID, N.O.S. (petroleum distillates), 4.1, UN3175, PGII (ON263I)
Premium Gold Solvent/ Safety-Kleen 150 Solvent	NA3077, Hazardous Waste Solid N.O. S. (Soil and debris contaminated with petroleum distillates), 9, PGIII (ERG# 171)	D039	Non Regulated Material (Soil and debris contaminated with petroleum distillates)
QSOL 220	UN3175, Waste Solids Containing Flammable Liquid, n.o.s. (aromatic halocarbon, siloxane) 4.1 PGII, RQ (D001) (ERG# 133)	D001	Not available in Canada

CONTAMINATED OIL AND VAC WASTES

The following DOT descriptions should be used whenever there is an incident involving the identified contaminant in SKOS and SKVS wastes. If the material is declared an EPA RCRA waste, the word "waste" must precede the DOT shipping description and the applicable waste codes on the manifest.

- a. Used Oil Contaminated with Hydrogen Sulfide

In the unlikely event that Used Oil is found to be contaminated with Hydrogen Sulfide, the material must be classified as follows:

- > If the concentration of hydrogen sulfide detected in the headspace of a used oil cargo tank is less than 500 ppm, the following description should be used:

Environmentally hazardous substances, liquid, N.O.S. (hydrogen sulfide) 9, UN 3082, PG III

- > If the concentration of hydrogen sulfide detected in the headspace of a used oil cargo tank is greater than or equal to 500 ppm, the following shipping description should be used:

**Toxic Liquids, Organic, n.o.s. (Hydrogen Sulfide)
6.1 UN2810, PG I, Poison Inhalation Hazard Zone B**

In addition, this material must be shipped in a MC 330 or MC 331 with no bottom outlet valve and properly designed and insulated in accordance with 49 CFR 173.315.

a. Used Oil and Vac Services Wastes Contaminated with Polychlorinated Biphenyls (PCBs)

In instances where used oil is contaminated with PCBs, the material must be classified as follows:

- > PCB concentration greater than 20 ppm and less than 50 ppm:
RQ Environmentally hazardous substances, liquid, n.o.s. (polychlorinated biphenyls), 9 UN3082, PG III (PCBs)
- > PCB concentration greater than 50 ppm: **RQ
Polychlorinated biphenyls, liquid, 9, UN2315, PG III**

a. Used Oil and Vac Services Wastes Contaminated with Caustics/Acids

The shipping description below can be used for oils contaminated with bases. If the caustic chemical is known, the name can be substituted as the technical descriptor.

- > If the pH of the used oil is greater than or equal to 12, the DOT description is:

40 CFR 279 Exempt:

Corrosive liquid basic, organic, n.o.s. (sodium hydroxide), 8, UN3267, PG II (ERG# 153)

Hazardous Waste:

RQ Waste, Corrosive liquid, basic, organic, n.o.s. (Sodium Hydroxide), 8 UN3267, PGII (D002), (ERG# 153)

EPA codes: D002

- > If the pH of the used oil is less than or equal to 3:

The shipping description below can be used for oils contaminated with acids. If the acidic chemical is known, the name can be substituted as the technical descriptor.

40 CFR 279 Exempt:

Corrosive liquid acidic, organic, n.o.s. (hydrochloric acid), 8, UN3265, PG11 (ERG# 153)

Hazardous Waste

RQ, Waste, Corrosive liquid, acidic, organic, n.o.s. (Hydrochloric Acid), 8, UN3265, PGII (D002), (ERG# 153)

EPA codes: D002

a. Ignitable Used Oil and Vac Wastes

The flash point of the waste must be determined prior to selecting one of the **following** descriptions. If the flash point cannot be readily determined, the most conservative name should be selected.

- Flash Point greater than 140 F (40 CFR 279 Exempt)
Flammable liquid, n.o.s. (Petroleum distillates), 3, UN1993, PGIII (ERG# 128)

EPA Codes: None

- Flash Point > 73 F, but less than 140 F (40 CFR 279 Non Exempt) **RQ, Waste, Flammable liquid, n.o.s. (Petroleum distillates), 3, UN1993, PGIII (D001) (ERG# 128)**

EPA Codes: D001

- Flash Point < 73 F (40 CFR 279 Non Exempt)
RQ, Waste, Flammable liquid, n.o.s. (Petroleum distillates), 3, UN1993, PGII (D001) (ERG# 128)

EPA Codes: D001

Flash Point 140 to 200 F Combustible liquid, n.o.s. (petroleum distillates), NA 1993, PG III

9. Required Items for Spill Kits

Spill kits must have at least the following items:

- Pair of yellow Tyvek Coveralls - XL or other appropriate size
- Set of Standard Goggles
- Pair of Nitrile Gloves - Size 10 or other appropriate size
- For route trucks 2- large Bag of Vermiculite (Grade 1) absorbs up to 5.7 gal/bag
- For Vacuum and Oil trucks 1 large bag of vermiculite is recommended plus a supply of universal absorbent pads. In cases where storage capacity on the vehicle is a concern, the Facility Manager may substitute in quantities and combinations that are appropriate.
- 2 - 3"x10' Haz Mat Boom (2gal per sock)
- Non-Sparking Shovel
- Polyethylene large Disposal Bags 4 bags and 4 Zip Ties
- Lobby Dust Broom
- 85 Gal Salvage Drum - A/C, D/C, Branch trucks only (not required for tank vehicles)

RE: DRIVERS/HAZMAT EMPLOYEES SUBJECT TO TRAINING AND RE-CERTIFICATION

The purpose of this memo is to certify that all drivers, subject to the Code of Federal Regulations Title 49 Parts 100-185 and Parts 381-399 are required to be trained and tested in the following areas as required:

General Awareness and Familiarization Function Specific

Safety
Security Awareness
In-Depth Security
Carriage by Public Highway (Drivers Only)

This training is required to be conducted within 90 days of the hazmat employee being hired or a change in job function.

Hazmat employees are also subject to recurring training every three years.

A record of the training, containing the below described information may be found in the employee's file:

The employee's name
Training completion date
Description of the training materials used
Name and address of the trainer
Certification that the employee was trained and tested as required

Any questions regarding the training program may be sent to Rex Dillabough at: rex.dillabough@safetykleen.com or he may be reached at 972-265-2335.

Safety-Kleen Regulatory Training

In accordance with USDOT, USEPA, and OSHA training requirements, or hazardous materials drivers have undergone the OSHA 24-Hour Hazwoper training program and USDOT Hazardous Material Transportation training. Safety-Kleen's training program exceeds these agencies requirements in the areas of material handling and safe driving practices. The following is an outline of course content provided by Safety-Kleen.

Facility Specific Training

Facility structure

Site-specific training (transfer, storage and disposal guidelines)

Generator requirements under USEPA

Cargo Tank Operations training (when applicable)

Rail Tank Car Operations training (when applicable)

Drivers Log and Hours of Service training (when applicable)

Forklift Operation training and certification (when applicable)

Drug Free Workplace training

New Employee Training @ Regional Training Centers

Regulatory Compliance

24-Hour Hazardous Waste Operation Training (Hazwoper)

- Hazard Communication
- Ergonomics
- Fire Protection
- Toxicology
- Medical Surveillance
- Equipment Guarding
- Personal Protective Equipment
- Container Handling and Closure
- Site Safety
- Bloodborne Awareness
- Hearing Protection
- Respiratory Protection
- Hazard Recognition
- Exposure Monitoring
- Lockout/Tagout
- Confined Space
- Decontamination

Hazardous Materials Transportation Skills Training

- Regulations
- Hazard Classes
- Labeling & Marking
- Segregation
- Defensive Driving
- Transportation Contingency Plan
- Shipping Papers
- Placarding
- Patriot Act

Each training program includes testing. Upon satisfactorily completing the course, training certification is issued for OSHA, USEPA and USDOT compliance.

SK Certified trainers perform New Employee Training as well as others perform various field-based initial and reoccurring training programs
