Karen-

We are set to meet at your facility on Monday, Jan. 30 at 9:30. Contact FPL as soon as possible to see if they can provide us energy conservation recommendations and indicate which may have financial incentives. They may need to come to the facility but we need their report as soon as possible. Please keep us in the loop on your communications with them.

P2 involves looking at the following aspects of your facility:

- Energy use
 - Building envelope (Roof, insulation, windows)
 - Lighting and HVAC
 - Transfer pump motors
 - Solar use
- Water conservation
 - Stormwater minimization and protection
- Industrial wastewater minimization
- Solid and hazardous waste minimization
- Housekeeping
 - Containment structures
 - Waste collection and transfer systems
 - Spills and releases minimization
 - Preventive maintenance
- Process efficiency
 - Problematic equipment and operations
 - Automation
 - Process controls

Ms. Violet:

We need to select P2 Projects and develop a P2 Project Summary. You stand to lose this option and pay the civil penalty in full if we delay. Please give me a call.

Ms. Violet-

Please call me regarding a potential P2 (Pollution Prevention) Project to offset a majority of the hazardous waste penalty. Please use the cell number for now – thanks.
