Dear Mr. McCormick:

Thank you for your assistance and cooperation during the Department of Environmental Protection's Hazardous Waste Compliance Evaluation Inspections conducted on March 26, 2012.

Enclosed are the inspection reports generated from this visit. Based upon the information gathered during the inspection, DES and DMT were found to be out of compliance with EPA identification number recordkeeping requirements. However this was discussed and corrected the day of the inspection. The facilities were otherwise found to be in compliance with applicable hazardous waste and used oil program regulations.

If you have any questions, please feel free to call me at (813) 632-7600, extension 383.

Sincerely,
