Kelly,

Thanks for taking the time to review the form and providing us with your feedback. I like your suggestions and will proceed w/ implementing them.
Hope you have a good week.

Thanks again,
Scott

Hey Scott:

Sorry it took me a while to get back to you. Your mail got buried in my email inbox. I looked at your form. Basically, it meets the requirements for the State of Florida. Personally, I like having multiple weeks on a single form. It makes paperwork review easier and saves paper. Here's my suggestions:

It's a little vague on the corrective actions part. I think it should more clearly state that the date any corrective actions were performed must be noted. Also, maybe spaces to mark each "subsection" Y or N could be provided. For example, there are 5 criteria listed under "Are containers in good condition?" It would encourage employees to look more closely at these criteria if they had to make a separate note for each item.

Let me know if you need anything further.

-Kelly

Kelly,

Thanks again for taking the time to talk to Jim and I regarding Wildwood. I've attached the "Progress Energy" form that Wildwood should be using and will be using in lieu of the old Florida Power form. Please let me know if you have any comments or suggestions on improving this form.

Thanks,

Scott
