

Florida Department of
Environmental Protection
Hazardous Waste Inspection Report

FACILITY INFORMATION:

Facility Name: Ring Power Corp

On-Site Inspection Start Date: 11/08/2012 **On-Site Inspection End Date:** 11/08/2012

ME ID#: 40512 **EPA ID#:** FLR000024158

Facility Street Address: 401 N Tomoka Farms Rd, Daytona Beach, Florida 32124-1067

Contact Mailing Address: 500 World Commerce Pkwy, St Augustine, Florida 32092-3788

County Name: Volusia **Contact Phone:** (904) 494-1417

NOTIFIED AS:

CESQG (<100 kg/month)

Used Oil

INSPECTION TYPE:

Routine Inspection for CESQG (<100 kg/month) facility

Routine Inspection for Used Oil Transporter facility

Routine Inspection for Used Oil Transfer Facility

INSPECTION PARTICIPANTS:

Principal Inspector: Michael Eckoff, Inspector

Other Participants: Scott Turner, Shop Foreman/Dispatcher

LATITUDE / LONGITUDE: Lat 29° 10' 47.4562" / Long 81° 5' 27.1968"

SIC CODE: 7699 - Services - repair services, nec

TYPE OF OWNERSHIP: Private, Private

Introduction:

On November 8, 2012, Michael Eckoff, Florida Department of Environmental Protection, accompanied by Scott Turner, Ring Power Corporation, inspected Ring Power Corporation for compliance with state and federal hazardous waste and used oil regulations. The facility most recently notified the Department of its waste activities on February 14, 2012 and was issued EPA ID FLR000024158 on December 29, 2003.

INSPECTION HISTORY (Past ten years)

The facility was inspected in April 2008 for compliance with state and federal hazardous waste and used oil regulations and was found to be in compliance at that time.

Process Description:

The facility rents light-duty and heavy-duty construction equipment and vehicles. As part of the rental agreement, the facility will come to a job site and service its equipment and vehicles. The wastes are transported back to the facility for proper disposal, as such, the facility is registered as a used oil transporter and transfer facility and a used oil filter transporter and transfer facility. The facility is an authorized CAT dealer.

The facility is separated into three areas: PFD-trucks; HE-heavy equipment; and Rental-back-hoe, skid steer, etc.

PFD-TRUCKS

Inspection Date: 11/08/2012

Routine maintenance is conducted on trucks in this area.

One parts washer is maintained by Safety Kleen.

Used antifreeze is collected in rolling containers. Used antifreeze is stored in a 275-gallon tank. The containers and tank were labeled.

Used oil is collected in rolling containers and catch pans. The containers and pans were properly labeled.

Used oil filters are stored in 55-gallon drums. The drums were properly labeled.

Aerosol cans are punctured in a 55-gallon drum. The empty aerosol cans are shipped as scrap metal.

HE-HEAVY EQUIPMENT

Two parts washers are maintained by Safety Kleen.

RENTAL

Used oil filters are stored in a 55-gallon drum. The drum was properly labeled.

Used oil is collected in rolling containers. The containers were properly labeled.

One parts washer is maintained by Safety Kleen.

Used oil is stored in a 500-gallon tank outside. The tank was properly labeled and provided secondary containment.

RECORDS

Used oil, used oil filters, used absorbents, and used antifreeze are picked up by Synergy and FCC Environmental.

Safety Kleen removed 13 gallons of parts washers waste on November 3, 2012 and July 25, 2012. The facility participates in the Continued Use Program with Safety Kleen.

Receipts for the pick up of used oil are electronic. The signature of the generator was not on the receipts [40 CFR 279.46(a)(5)(i)].

NOTE: On November 8, 2012, the facility emailed a copy of a used oil pick up receipt with the signature of the generator.

Aerosol can waste has not been disposed yet.

New Potential Violations and Areas of Concern:

Violations

Type:	Violation
Rule:	279.46(a)(5)(i)
Explanation:	Except as provided in paragraph (a)(5)(ii) of this section, the signature, dated upon receipt of the used oil, of a representative of the generator, transporter, or processor/refiner who provided the used oil for transport. Specifically, Ring Power Corporation failed to obtain the signature of the generator of the used oil upon pick up.
Corrective Action:	On November 8, 2012, Ring Power Corporation provided a receipt of a pick up of used oil with the signature of the generator.

Inspection Date: 11/08/2012

Conclusion:

Ring Power Corporation was inspected as a conditionally exempt small quantity generator of hazardous waste, a used oil transporter and transfer facility, and a used oil filter transporter and transfer facility, and returned to compliance shortly thereafter.

Inspection Date: 11/08/2012

Signed:

A hazardous waste compliance inspection was conducted on this date, to determine your facility's compliance with applicable portions of Chapters 403 & 376, F.S., and Chapters 62-710, 62-730, 62-737, & 62-740 Florida Administrative Code (F.A.C.). Portions of the United States Environmental Protection Agency's Title 40 Code of Federal Regulations (C.F.R.) 260 - 279 have been adopted by reference in the state rules under Chapters 62-730 and 62-710, F.A.C. The above noted potential items of non-compliance were identified by the inspector(s).

This is not a formal enforcement action and may not be a complete listing of all items of non-compliance discovered during the inspection.
