---

Description of Complaint: Facility is located at the old North FL Oil processing plant on SR 40 in Astor. While the UO Processor permit is still active - the facility has allegedly not been operating for several years. Complainant states that sludge is being removed from the tanks located on site and the sludges are not being disposed of properly (no tests, no profiles).

Complainant did not know where sludges were being disposed of.

Type and Quantity of Waste Involved: sludge from used oil tank cleaning.
