Facility Street Address: 7500 26th Court E, Sarasota, Florida 34243

Contact Mailing Address: 500 World Commerce Pkwy, St Augustine, Florida 32092-3788

County Name: Manatee

Contact Phone: (904) 494-1417

NOTIFIED AS:

SQG (100-1000 kg/month)

Used Oil

INSPECTION TYPE:

Routine Inspection for CESQG (<100 kg/month) facility

Routine Inspection for Used Oil Transporter facility

Routine Inspection for Used Oil facility

INSPECTION PARTICIPANTS:

Principal Inspector: Nancy D. Gaskin, Inspector

Other Participants: Jay Hegemyer, Heavy Equipment Service Advisor

LATITUDE / LONGITUDE: Lat 27° 24' 19.2696" / Long 82° 31' 53.7092"

SIC CODE: 7699 - Services - repair services, nec

TYPE OF OWNERSHIP: Private

Introduction:

Ring Power rents and services heavy equipment. The 10,000 square foot shop has nine service bays. The facility is on Manatee County water and sewer and has 28 employees. Ring Power is a conditionally exempt small quantity generator of hazardous waste, a generator of used oil and a registered transporter of used oil.

Process Description:

There are three System One recycling parts washers serviced every 4 months by Safety Kleen and three drum top parts washers that are on Safety Kleen's continued use program. Used oil is stored in a 4,000 gallon double-walled above ground storage tank. The used oil tank, all drain pans and dollies where all labeled "Used Oil." All used oil, used antifreeze, used oil filters and used oil absorbents are sent to Synergy Recycling. About 300 gallons of used oil are generated every months. Shop rags and uniforms are laundered by Cintas. Contaminated dirt cleaned out of the wash rack is sent to Clark Environmental.

Universal waste lamps and batteries are taken to the Ring Power facility in Tampa. Lead acid batteries are exchanged back to Caterpillar or recycled with Deka Batteries for core credit out of the Tampa location. Universal waste bulbs are recycled with Veolia Technical Solutions, LLC.

Rings Power's Transporter Registration and insurance were displayed during the inspection. Their

Inspection Date: 06/25/2013

registration and financial assurance is current.

Facility hazardous waste disposal and used oil records were reviewed and found complete. Test results for the wash rack solids were current and showed the material to be non-hazardous.

Conclusion:

Ring Power was found to be in compliance with State and Federal hazardous waste regulations governing conditionally exempt small quantity generators of hazardous waste and generators/transporters of used oil at the time of the inspection.

Inspection Date: 06/25/2013

Signed:

A hazardous waste compliance inspection was conducted on this date, to determine your facility's compliance with applicable portions of Chapters 403 & 376, F.S., and Chapters 62-710, 62-730, 62-737, & 62-740 Florida Administrative Code (F.A.C.). Portions of the United States Environmental Protection Agency's Title 40 Code of Federal Regulations (C.F.R.) 260 - 279 have been adopted by reference in the state rules under Chapters 62-730 and 62-710, F.A.C. The above noted potential items of non-compliance were identified by the inspector(s).

This is not a formal enforcement action and may not be a complete listing of all items of non-compliance discovered during the inspection.
