III. ESTIMATE ADJUSTMENT: (check and use either box a or b, below)

Rule 62-710.800(6)(c), Florida Administrative Code, sets forth the method of annual cost estimate adjustment. Cost estimates may be adjusted by using an inflation factor or by recalculating the maximum costs of closing in current dollars. Estimates are due annually between January 1 and March 1. Select one of the methods of cost estimate adjustment below.

(a) Inflation Factor Adjustment

Inflation adjustment using an inflation factor may only be made when a Department approved closing cost estimate exists and no changes have occurred in the facility operation which would necessitate modification to the closure plan. The inflation factor is derived from the most recent Implicit Price Deflator for Gross National Product published by the U.S. Department of Commerce in its survey of Current Business. The inflation factor is the result of dividing the latest published annual Deflator by the Deflator for the previous year. The inflation factor may also be obtained from the Solid Waste Financial Coordinator at (850) 245-8732 or be found online at <http://www.dep.state.fl.us/waste/categories/swfr/>

Dear Mr. Parkes:

I reviewed the documentation submitted to demonstrate financial assurance for the above referenced facilities and find it is in order. Wells Fargo Bank, N.A. letter of credit amendment number 020, dated June 26, 2013 increases the credit amount of letter of credit number SM206001W to \$707,214.00. This covers the Department approved closing cost estimates for the above referenced facilities of \$75,020.00, \$19,589.00, \$95,314.00, \$291,610.00, \$138,085.00 and \$87,596.00, respectively. Therefore, these facilities are in compliance with the financial assurance requirements of 40 CFR Part 264, Subpart H, as adopted by reference in Rule 62-701.630, Florida Administrative Code, at this time.

Please contact me at (850) 245-8740 if you have any questions.

Sincerely,

Susan Eldredge
