Subject: Safety-Kleen Systems, Inc. (Tampa) FLD 980 847 271, Operating Permit No. 34744-HO-007, *Natural Attenuation Monitoring Report #7* dated June 24, 2014

Dear Mr. Curtis:

Your report is acceptable.

Your report and your June 26 email memorialize damage to the well pad at MW-5. We agree that the pad need not be repaired at this time because the integrity of the well was not compromised, and this well may not be needed beyond your August sampling event.

Your next sampling event is in August 2014 with the report due no later than the end of October (60 days after the sampling event).

If you have any questions, please call me at 850-245-8796 or e-mail me at merlin.russell@dep.state.fl.us

Sincerely,

A handwritten signature in black ink, appearing to read 'Merlin Russell'.
