

Florida Department of  
Environmental Protection  
Hazardous Waste Inspection Report

---

**FACILITY INFORMATION:**

**Facility Name:** Cliff Berry Inc-Tampa Facility

**On-Site Inspection Start Date:** 03/13/2015

**On-Site Inspection End Date:** 03/13/2015

**ME ID#:** 13562

**EPA ID#:** FLR000013888

**Facility Street Address:** 5218 Saint Paul St, Tampa, Florida 33619-6118

**Contact Mailing Address:** PO Box 13079, Fort Lauderdale, Florida 33316-0100

**County Name:** Hillsborough

**Contact Phone:** (954) 763-3390

**NOTIFIED AS:**

CESQG (<100 kg/month)

Transporter

Used Oil

**INSPECTION TYPE:**

Routine Inspection for Used Oil Processor facility

Routine Inspection for Transporter facility

**INSPECTION PARTICIPANTS:**

Principal Inspector: Shannon D. Camp, Inspector

Other Participants: Jon Sandora, Regional Manager

**LATITUDE / LONGITUDE:** Lat 27° 55' 12.3033" / Long 82° 23' 43.3281"

**SIC CODE:** 4953 - Trans. & utilities - refuse systems

**TYPE OF OWNERSHIP:** Private

**Introduction:**

Cliff Berry, Inc. (CBI) was inspected on March 13, 2015, to determine the facility's compliance with state and federal hazardous waste and used oil regulations. Mr. Sandora accompanied the inspector throughout the inspection. This facility was last inspected by the Department in March 2013.

**Process Description:**

CBI is a permitted used oil processor as well as a used oil/used oil filter transporter and transfer facility. Operations have not changed significantly since the Department's last inspection. CBI is permitted to bulk and process non-hazardous petroleum contaminated debris and soil in a mixing chamber. The mixing chamber has been cleaned out and sealed with an epoxy coating. Records indicate that the facility is not accepting or processing more than 250 tons of oily solid waste per month. Construction on the new tanks noted in the permit for industrial waste water processing has not been initiated.

CBI is no longer analyzing the used oil on site as all the used oil is transported to CBI's Miami processing facility. The Tampa office is not marketing used oil and is not picking up any used oil that has a halogen reading over 1000 ppm. Documentation of rejected loads is maintained at the Fort Lauderdale office.

Inspection Date: 03/13/2015

Records indicate that the drivers receive annual used oil refresher training. The last training session was conducted in January 2015. The contingency plan was current and appeared adequate. The facility maintains weekly inspection logs of the facility which includes inspections of the safety equipment and the tank systems. The filter basket solids were last analyzed in July 2012 and were determined to be non-hazardous. All wastes, used oil, used oil filters and PCW are transported to the Miami processing facility for disposal. Used oil acceptance and delivery records were reviewed during the inspection. No discrepancies were noted. The facility still occasionally uses the vehicle maintenance area for small repairs and oil changes of fleet vehicles. Most of the maintenance and repair work is contracted out. The facility still uses the parts washer with diesel. The diesel has not needed to be changed out or disposed of in the last three years. Spent mercury containing lamps are disposed of as needed to AERC.

**Conclusion:**

At the time of the inspection, Cliff Berry, Inc. was operating in compliance with state and federal regulations governing used oil processors.

Inspection Date: 03/13/2015

**Signed:**

A hazardous waste compliance inspection was conducted on this date, to determine your facility's compliance with applicable portions of Chapters 403 & 376, F.S., and Chapters 62-710, 62-730, 62-737, & 62-740 Florida Administrative Code (F.A.C.). Portions of the United States Environmental Protection Agency's Title 40 Code of Federal Regulations (C.F.R.) 260 - 279 have been adopted by reference in the state rules under Chapters 62-730 and 62-710, F.A.C. The above noted potential items of non-compliance were identified by the inspector(s).

This is not a formal enforcement action and may not be a complete listing of all items of non-compliance discovered during the inspection.
