Used-Oil Processing Operating Application #76517-HO06-001
Request for Extension

Dear Mr. Crawford:

Florida Waste Environmental Services, Inc (FWES) requests an extension in submitting responses to your *First Notice of Deficiency* dated February 13, 1998. FWES is not processing used-oil at this time but is still operating as a Used-Oil and Oil Filter Transporter and Transfer Facility.

Gary Santti, East Bay Engineering, will be the Engineer of Record for this Permit. As you know, FWES is under new management. Therefore, we are engaged in a comprehensive strategic business planning effort, attempting to re-evaluate the long-term direction of the business. Upon completion of that process, we will determine what new permitting we desire to pursue.

Thank you for your willingness to grant us this essential extension.

Sincerely yours,

James E. Stiner
Chief Executive Officer

Cc: Fran Braaksma
Thomas Brislin
Gary Santti
