The following plans are asked to be withdrawn until issues with the proximity to the adjacent Public Drinking Water Supply Well and availability of adequate fire-water supply are addressed. Supposedly, the City of Tampa has plans for a water main for St. Paul Street but until the public drinking well issue is resolved a Used-Oil Processing Permit, Solid Waste Processing Permit or a new above-ground tank farm for petroleum products can not be permitted within 500 feet of a public drinking well source..
