Introduction:

A routine compliance evaluation inspection (CEI) was conducted at Drew Fuel Services, Inc. (DFSI). The facility operates as a fuel tank service entity offering a variety of services. The facility is located in a 4-acre industrial/corporate office complex occupying one 400 sf unit of the office building. DFSI's trucks are parked in the back (west) section of the complex plaza's parking lot. DFSI uses city utilities (sewer and water). The business currently employs about 10-15 workers and has been operating at current location since 2012.

NOTIFICATION HISTORY:

2015.09.03 - Facility notified as Non-Handler of Hazardous Waste; PCW Management, HWT, UOT, UOFT

2013.05.16 - Facility notified as Non-Handler of Hazardous Waste; PCW Management, HWT, UOT, UOFT
2012.10.23 - Facility notified as SQG; PCW Management, HWT, UOT, UOFT

INSPECTION HISTORY:

- Facility has never been previously inspected by the Department

VIOALTIONS HISTORY:

Inspection Date: 09/03/2015

- No violations were reported by the Department to date of inspection

Process Description:

Drew Fuel Services, Inc. operates as a fuel tank service and offers services such as Petroleum Testing, Petroleum Removal, Petroleum Tank Cleanings, Petroleum Recycling, Fuel Polishing/Petroleum Filtration, Fuel Remediation and Fuel Management.

Currently the facility does not transport hazardous wastes. If wastes are generated at service site/client's location DFSI contracts Clean Harbors to manage and transport HW directly from the POG. All petroleum wastes generated from regular operations are transported to various permitted UO handler entities within 24 hours of generating wastes. No wastes are stored at the facility.

At time of inspection no hazardous or petroleum wastes were stored at the facility.

DFSI's trucks were observed to have proper DOT-required placards, halogen testing, fire and spill kits.

The following records were reviewed and appeared to be in compliance:

- Manifests/service and waste tracking records
- Proof of insurance
- Training records
- Contingency plan
- Proof of emergency arrangements with local authorities
- Emergency numbers posted

Although DFSI is a notified HW, UO and UOF transporter, the facility currently only transports PCW.

Conclusion:

No violations were observed at time of inspection.
