Subject: Hazardous Waste updates

Beth,

Welcome back. I hope you have a great vacation. Here is a list of things that have been going on while you were away.

.....

- I have spoken with senior management and Hector Danois with EPA. EPA will take the lead on the Tampa Ship and Clean Harbors cases. I know you have worked very hard on Clean Harbors but we need to focus our resources on getting the LOS done and accelerating staff training. You did a great job on the Clean Harbors case and EPA will probably still need some support from you.

... I think this is it for right now. I will be checking my email from time to time. So let me know if anything comes up or you have questions.
