Subject: Hurricane Matthew

With Hurricane Matthew fast approaching, we would like to reach out to our TSD and LQG facilities in coastal counties. If you experience an emergency at your facility, please implement your contingency plan. If necessary, contact the National Response Center and the State Watch Office in the event of a release of hazardous waste or hazardous materials.

After the storm passes and when things settle down at your facility, please respond to this email to let us know how you fared.

Thank you and be safe,

Michael Eckoff
