Good Morning Ms. Blandin,

I am very sorry to hear about Kathy's medical condition, I have know her for many years and it was good to re-make our acquaintance during the inspection. I will be hoping she recovers.

Please see the email below which includes the pictures of the boxed and labled lamps.

Please advise if this suffices or I can provide additional assistance.

Thank you and have a safe day and weekend.

Kathy,

Thank you so much for your prompt forwarding of the EPA ID number database. I am sharing with my office and partners so they can also utilize this resource.

Also, it was great to see you yesterday, I know we met years ago but it was a pleasure to get to know you again.

Thank you for your insights during the facility inspection, also the templates and handouts.

Please see the attached pictures documenting the correct packaging of the 8' florescent bulbs. I went by Clean Fuels yesterday and got the correct box. They will be coming by in the next few days to collect the 4' bulbs for recycling. I can forward the manifest if you would like to review.

We are involved in a specialized industry, one that is dependent on an open and cooperative attitude between the generators, the service providers and our regulators in order to achieve

success. I personally want you to know that we value the input from the regulatory community and your personal assistance yesterday was much appreciated.

Thank you, Please be Safe !

Enjoyed my visit with you yesterday and I hope that my efforts at compliance assistance were helpful. Here is the website I was telling you about for searching EPA ID numbers. If you have any problems navigating this database, just give me a call and I will talk you through it. Again, thanks for being so accommodating yesterday and I am looking forward to working with you to return the facility to compliance.
