Public reporting burden for this collection of information is estimated to average 37 minutes for generators, 15 minutes for transporters, and 10 minutes for treatment, storage and disposal facilities. This includes time for reviewing instructions, gathering data, and completing and reviewing the form. Send comments regarding the burden estimate, including suggestions for reducing this burden, to Chief, Information Policy Branch, PM-223, U.S. Environmental Protection Agency, 401 M St., S.W., Washington, D.C. 20460; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503.

16. GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations and the laws of the State of South Carolina.  
If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimizes the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

Southwest District Tampa

Mr. Gil Dembeck  
Florida Dept. of Env. Protection  
Southwest District  
3804 Coconut Palm Drive  
Tampa, FL 33619

Dear Mr. Dembeck,

The purpose of this letter is to inform your department of a violation of 40 CFR 262.22(a) and 262.71(a)(1), manifest system, that has occurred at Freehold Cartage, Inc.

Enclosed, is a photocopy of an Exception Report, filed with USEPA on 06/24/99.

The long & the short of it is that Freehold Cartage, Inc. delivered one drum of hazardous waste to the Designated Facility, without obtaining a signature from the owner or operator of the facility. In fact, the manifest did not accompany the drum to the facility. I do not know how the facility accepted the drum without a manifest, but there is no doubt whatsoever that they did. However, they have refused to sign the manifest, post fact.

The driver who transported the load has been disciplined and will be routed to New Jersey for additional training.

If you have any questions or comments, please feel free to contact me at (732) 462-1001, ext. 7201.

Very Truly Yours,  
Freehold Cartage, Inc.

W. Barry Olsen  
Safety Director

## ***EXCEPTION REPORT***

Dear Sir or Madam,

The purpose of this letter is to report an exception to the requirements of 40 CFR 262.22(a) and 262.71(a)(1), manifest system.

**Generator:** Clearwater Toyota  
21799 U.S. 19 North  
Clearwater, FL 33765  
Conditionally Exempt Generator

**Transporter:** Freehold Cartage, Inc.  
PO Box 5010, 825 Hwy. 33  
Freehold, NJ 07728  
NJD 054 126 164

**Designated Facility:** Southeastern Chemical and Solvent  
755 Industrial Road  
Sumter, SC 29150  
SCD 036 275 626

**Manifest No.:** South Carolina Uniform Hazardous Waste Manifest  
Document No. 51399 (photocopy enclosed)

**Date Shipped:** May 12, 1999

On 05/12/99, Freehold Cartage, Inc. accepted for transportation, one (1) drum of D006 material from Clearwater Toyota for delivery to Southeastern Chemical and Solvent, as part of a Less Than Truckload shipment. The drum was brought to our Bartow, Fla. 10 Day Storage and Transfer Facility (FLD 984 187 831) for consolidation with other drums that had been accepted

**FREEHOLD CARTAGE INC.**

Page 2

from generators throughout south and central Florida.

On 05/13/99, a consolidated shipment of 74 drums from nine (9) different generators, including Clearwater Toyota, departed our Bartow, Fla. facility, and was delivered without incident to the Designated Facility on 05/17/99.

On 05/19/99, it was discovered that South Carolina Uniform Hazardous Waste Manifest Document No. 51399 (Clearwater Toyota) had not accompanied the shipment from Bartow, Fla. to the Designated Facility, and therefore had not been signed by the Facility Owner or Operator, as required. Several attempts to justify this discrepancy with the Designated Facility have been unsuccessful.

However, there is no doubt that the drum in question was indeed delivered to the Designated Facility, along with the rest of the Less Than Truckload shipment on 05/17/99. Our daily log of activity at the Bartow facility (copy enclosed) clearly shows the drum arriving at Bartow on 05/12/99, on our trailer No. 4477, and departing Bartow on 05/13/99, destined for Southeastern Chemical and Solvent on our trailer No. 4477. Additionally, our Outbound LTL Load Sheet (copy enclosed) also clearly shows the drum leaving Bartow on trailer No. 4477 on 05/13/99, destined for Sumter, SC.

An interview with our driver who took the outbound load from Bartow, Fla. to Sumter, S.C. confirms that he failed to perform a required piece count, prior to departing Bartow. However, there was also an apparent piece count discrepancy at the time of delivery to the Designated Facility that went unnoticed. Our experience of more than 38 years in the transportation business has taught us that it is not extremely rare to have piece count discrepancies. In most cases, they are usually resolved by re-counting the drums involved.

While we have several safeguards in place to prevent this type of incident, apparently, they are not absolutely fail-safe. Additionally, we cannot control procedures that may be in place at the facilities where we delivery the waste. As noted above, this particular shipment consisted of seventy four 55 gallon drums. They had been picked up over the course of seven days from nine different generators by several different drivers, and brought to Bartow, Fla. They were then consolidated onto a single truck for delivery to the Designated Facility. This work is accomplished by our local drivers. When the outbound shipment is complete, one of our over-the-road drivers is assigned to deliver the loaded trailer. He is given all manifests for the load, and is required to perform a piece count, as part of his pre-trip inspection. The driver who transported this load has been disciplined for failing to perform the piece count prior to departing Bartow.

**FREEHOLD CARTAGE INC.**

Page 3

I apologize for any inconvenience this matter may have caused your department. If you require any additional information, please feel free to contact me at (732) 462-1001, ext. 7201.

Very Truly Yours,  
Freehold Cartage, Inc.

OGC Case No. 98-0538

Re: Freehold Cartage Inc.  
FLD 984 187 831, Polk County

Dear Mr. Blanchet:

A review of the file for the referenced case indicates that the terms of the Consent Order have been satisfied. This enforcement action is now closed.

Although not obligated, in the interest of creating a more cooperative and effective regulatory relationship, the Department encourages Freehold to continue its implementation of a self-audit policy to voluntarily discover, disclose, correct, and prevent violation of state environmental laws. The Department, will likewise, take all such efforts into consideration when evaluating Freehold's compliance in the future.

Sincerely,

William Kutash  
Administrator  
Division of Waste Management

## **BARTOW 10 DAY STORAGE & TRANSFER FACILITY** (Hazardous Waste, Used Oil, and Mercury Containing Lamps and Devices)

### ***STANDARDS OF OPERATION***

The purpose of this document is to ensure compliance with the requirements of laws, regulations, permits and other sources of authority for environmental requirements.

#### **I. GENERAL**

##### **A. Employee Training**

It is expected that all operational employees of the Bartow facility will handle hazardous waste, therefore, all operational new hires are to receive training prior to working without supervision. This training must include as a minimum the following:

1. Hazard Recognition.
2. Hazard Communication.
3. Emergency Response.
4. Personal Protective Equipment.
5. Fire Extinguisher Use.
6. USDOT Hazardous Material Information System.
7. USEPA/RCRA Manifest System.

#### **II. TRANSPORTER REQUIREMENTS**

##### **A. Acceptance of Hazardous Waste for transportation (non-bulk).**

*Prior to accepting containerized hazardous waste for transportation, the driver must assure himself of the following:*

1. Proper permits on board vehicle.
2. Has the generator completed a Uniform Hazardous Waste Manifest for the shipment?
3. Is the manifest properly completed with at least the following:
  - a. Generators' name, USEPA ID Number, mailing address and phone number.
  - b. Unique Document Number.
  - c. Transporters' name, USEPA ID Number, & Telephone Number.  
(Freehold Cartage, Inc.; NJD 054 126 164; 941-533-4599)

- d. TSDf name, USEPA ID Number, address and telephone number.
  - e. Proper USDOT Basic Description, including Name of Material, Hazard Class, UN/NA ID Number and Packing Group.
  - f. Number & Type of Containers.
  - g. Total Quantity of waste.
  - h. Unit of Measure.
  - i. EPA waste code.
  - j. 24 hour emergency telephone number.
  - k. Generators' printed or typed name, original signature, and date.
4. Land Disposal Restriction Notice (Land Ban) attached, if required.
  5. Verify that each container is a proper DOT shipping container, compatible with the described waste, and in good condition with no leaks, dents, or old markings.
  6. Verify each container has been properly marked and labeled with the following:
    - a. Correct USDOT Hazard Class Label(s).
    - b. USEPA Hazardous Waste Label, to include generators' Name, Address, USEPA ID Number, name of material, accumulation date, and document #.
  7. Check the USDOT Loading & Storage Guide for material segregation requirements.
  8. Prior to leaving generator site, give generator proper copies of manifest, ensure the vehicle is properly placarded, manifest and emergency response information are properly stored in cab.

**B. Acceptance of Hazardous Waste for transportation (cargo tank).**

*Prior to beginning loading of bulk liquids for transportation to disposal facility, the driver must assure himself of the following:*

1. Proper permits on board vehicle.
2. Cargo tank has current Test/Inspection markings.
3. Cargo tank is clean, and compatible with material to be loaded.
4. Cargo tank has capacity to hold material without spillage or overweight.
5. Cargo hoses are clean and in good condition with good gaskets and fittings proper for material to be loaded.
6. Grounding and bonding connections, if required.

*After completion of bulk liquids loading, the driver must ensure the following:*

7. Accurate determination of quantity loaded.
8. All cargo tank openings are closed and secured.
9. No leakage or spillage.
10. All hoses properly drained and stowed.
11. Grounding and bonding device(s) disconnected.

12. Obtain properly completed and signed Uniform Hazardous Waste Manifest from generator, as above, leaving proper copies with generator.
13. Affix placards and UN/NA ID Number in accordance with shipping description
14. Manifest & Emergency Response information properly stored in cab.

**C. Delivery of Hazardous Waste to Designated Disposal Facility, or subsequent transporter (non-bulk).**

*Upon delivery of hazardous waste to a TSDF, or subsequent transporter, the driver must, at a minimum, ensure the following:*

1. All containers listed on the manifest have been accounted for and accepted by the facility.
2. There has been no spillage or leakage within the vehicle.
3. Any discrepancies have been resolved.
4. Agent for the disposal facility, or subsequent transporter has certified acceptance with his printed or typed name, original signature and date on the manifest.
5. Obtain Transporters' copy of the signed manifest.
6. Placards on the transport vehicle have been adjusted for any remaining materials on the vehicle, or have been removed if empty.

**D. Delivery of Hazardous Waste to Designated Disposal Facility, or subsequent transporter (bulk liquids).**

*Upon delivery of bulk liquids hazardous waste to a TSDF, or subsequent transporter, the driver must, at a minimum, ensure the following:*

1. Cargo tank is completely empty (placards not removed until tank is cleaned and purged).
2. Agent for the disposal facility, or subsequent transporter has certified acceptance of the waste with his printed name and original signature and date on the manifest.
3. Obtain Transporters' copy of the signed manifest.

### **III. TRANSFER FACILITY REQUIREMENTS**

**A. Length of Storage.**

1. *Hazardous waste MAY NOT be stored in excess of 10 days.*

## **B. General Facility Standards.**

At **NO TIME** is hazardous waste to be stored off the secondary containment pad. *This includes VEHICLES that CONTAIN hazardous waste! They MAY NOT be parked off the containment pad for even a short period!*

1. Whenever the facility is unmanned, the entrance and exit gates must be closed and locked. Keys and emergency contacts and telephone numbers are located at Airport Security, Main Gate.
2. During Off Hours, the facility is patrolled by Bartow Municipal Airport Security.
3. Signs that are capable of being read from at least 25 ft. must be posted to warn unauthorized personnel away.
4. A written Facility Inspection Plan must be in place, with documented weekly inspections.
5. Completed Inspection logs must be maintained for a minimum of 3 years.
6. Any deficiencies discovered during the weekly inspection must be corrected as soon as possible.

## **C. Contingency Plan & Emergency Procedures.**

1. The facility must have a written Contingency Plan, with a copy available for inspection at all times.
2. The plan must include the following, at a minimum:
  - a. Action personnel will take in an emergency.
  - b. Evacuation routes out of the facility.
  - c. Listing of emergency equipment.
  - d. Identification of the Emergency Coordinator.
3. A Copy of the plan must be supplied to:
  - a. Florida Department of Environmental Protection.
  - b. City of Bartow Police Department.
  - c. City of Bartow Fire Department.
  - d. Bartow Municipal Airport Management.

## **D. Preparedness & Prevention.**

1. The facility must be equipped with the following emergency equipment:

- a. Internal communications or alarm system (easily accessible).
  - b. Telephone or 2-way radio to call emergency response personnel.
  - c. Portable fire extinguishers, fire control equipment, spill control equipment, and decontamination equipment.
  - d. This emergency equipment must be tested at a minimum, annually.
2. On a periodic basis, local police, 1st aid, fire dept. and emergency personnel are to be invited to the facility in order to familiarize them with the layout, and to inform them of the hazards they may encounter during an emergency.
  3. On a periodic basis, Bartow General Hospital is to be notified of the properties of hazardous waste handled, and the types of injuries that could result from fires, explosions or releases at the facility.
  4. The facility must maintain agreements with emergency response contractors and equipment suppliers. Telephone numbers for these contractors must be readily available to the emergency coordinator at all times.
  5. The facility must have a written closure plan that satisfies requirements of closure performance, notification, and decontamination standards of 40 CFR 265.111, 265.112(c), 265.114, 265.115.
  6. A copy of this plan must be supplied to FLDEP.

#### **E. USE & MANAGEMENT OF CONTAINERS.**

1. All containers of hazardous waste brought into the facility must be in good condition (ie: no leaks, corrosion, or bulging).
2. All containers brought into the facility are to be inspected by the facility manager, or his designee.
3. At a minimum, containers are to be inspected for:
  - a. Container condition.
  - b. Verify piece count against manifest.
  - c. Proper labeling.
  - d. Container destination.
  - e. Compatibility of material with container or liner.
  - f. Proper segregation of hazardous materials of different hazard classes.

4. If a container is found to be leaking, it is to be overpacked, and the overpack container is to be properly labeled.
5. When containers are being consolidated according to destination, consideration is to be given to segregation of different hazard classes in accordance with the Loading & Storage Guide.
6. No containers of hazardous waste are to be opened, handled, or stored in a manner likely to cause the container to leak or rupture.
7. A written log is to be maintained of all hazardous waste that enters or leaves the facility. This log must contain, at a minimum:
  - a. Generators' name.
  - b. Generators' EPA ID No. \*\*
  - c. Manifest Document No.
  - d. Date when the waste enters the facility.
  - e. Vehicle No. bringing the waste in.
  - f. Designated disposal facility.
  - g. Date when the waste leaves the facility.
  - h. Vehicle No. taking the waste out.

\*\*Note - for CESQG with no USEPA ID No., enter Generator's complete address.

#### **F. GENERAL HOUSEKEEPING.**

1. The Transfer Facility is to be maintained in a clean and orderly manner at all times.
2. Secondary containment pad must be cleaned and inspected on a regular basis.
3. Grass may not be allowed to become overgrown.
4. Fencing must be inspected for deterioration or breaks on a regular basis.

*revised 03/31/98*

March 25, 1999

Mr. Gilbert Dembeck  
Florida Dept. of Env. Protection  
Southwest District  
3804 Coconut Palm Dr.  
Tampa, FL 33619

D.E.P.  
MAR 26 1999

**RE: OGC Case No. 98-0538  
4th of 4 Quarterly Reports**

Dear Mr. Dembeck,

In accordance with the terms of the above referenced Consent Order, Freehold Cartage, Inc. (FCI) submits this report on our efforts to exercise due diligence in assuring environmental compliance, including violations discovered, corrective actions taken, and procedural changes to prevent recurrence.

**History of Case No. 98-0538:**

On December 3, 1997, the FCI Bartow 10 Day Storage & Transfer facility, FLD984187831, was inspected by Florida Department of Environmental Protection (FDEP) agent Gilbert Dembeck. As a result of that inspection, FCI and FDEP entered into a Consent Order due to the following alleged violations:

1. Storage of hazardous waste at a transfer facility in excess of 10 days.
2. Incomplete written record of when all hazardous waste enters and leaves facility.
3. Re-dated manifest and post-dated addition to transfer facility record.

The terms of this Consent Order include:

1. Civil penalty of \$22,998.00, and \$100.00 for costs & expenses.
2. For 13 months, submit to FDEP monthly copies of transfer facility record.
3. Exercise "due diligence", as defined in Section 2.b of FDEP's "Incentives for Self-Evaluation of the Regulated Community," FDEP 922.
4. For one year, make quarterly compliance reports to FDEP on the nature and results of our efforts to exercise due diligence.

**FREEHOLD CARTAGE INC.**

4th quarterly report, page 2

D.E.P.

MAR 26 1999

Southwest District Tampa

**Final quarterly report on Case No. 98-0538:**

Since our last report, the following has occurred at the FCI Bartow facility:

1. Two additional terminal employees have been hired, as a means of enhancing compliance with environmental regulations.
2. Plans are in place to replace the existing office building with a larger building, in order to provide ample work space for record keeping, dispatch, reception, and additional office space. This should be completed by July 1st. of this year.
3. There have been ongoing discussions between FCI and FDEP, regarding generator status of USDEA shipments of waste brought to FCI by Cliff Berry, Inc.(CBI). On 12/29/98, FCI asked for a determination from FDEP, as to whether or not generator status was viewed as an enforcement issue for the carrier. As of this date, there has been no response to this important question. Therefore, FCI has refused USDEA waste from CBI since February 10, as we are unable to determine the validity of CESQG status for shipments accompanied by shipping tickets.
4. Two self-audits were conducted. The most recent by myself, on 02/19/99. As a result of that audit, it was discovered that two shipments of hazardous waste had remained at the facility one day in excess of the 10 day storage limit, a violation of FDEP regulations. This matter was discussed with you that day. Investigation indicates that one of the violations was due to an incorrect date being entered on the log, and the second violation occurred when a driver who was scheduled to remove the load on Saturday did not do so until Sunday. The employee who maintains the log has been re-trained, and the driver has been disciplined.

Also during this audit, all vehicles at the facility were inspected. No vehicles containing hazardous waste were parked off the containment pad. All rolloff containers that were off the containment pad were empty. All safety equipment was in order, although one truck fire extinguisher was in need of recharge, and was replaced. All drums at the facility were inspected for proper condition, leaks, marking and labeling. There were approximately 320 drums on-site. One drum label did not have a Manifest Document number. This was corrected immediately. Twenty Uniform Hazardous Waste Manifests were reviewed for correctness and accuracy, with very few problems. There was no indication of any spills or releases. General housekeeping is much improved. All warning signs are in place. Trucks were equipped with spill kits, although one shovel was damaged. This was replaced the same day. It was noted in the log, that one CESQG generator (Holland America Line) appears to be generating more than 220 lbs. of waste per month, though this could not be confirmed, as FCI is again, the 2nd transporter of this waste. A note was made to contact the broker, and 1st transporter.

**4th Quarterly report, page 3**

5. An 8 hour refresher training class was held on 02/20/99 for all Bartow employees. Subjects covered included:
  - a. USEPA Hazardous Waste Manifest system.
  - b. FDEP regulations for transporters & transfer facilities.
  - c. Used Oil regulations.
  - d. Universal Wastes
  - e. USDOT requirements for the transportation of hazardous materials.
  - f. Fork Lift training.
  - g. Company standards, policies and procedures for compliance with environmental regulations.

As this is our last quarterly report, I am also including a synopsis of our efforts to exercise due diligence in assuring environmental compliance during the past year. The violations that led to this Consent Order have been dealt with by Freehold Cartage, Inc. in the following manner :

1. Terminal manager and his assistant were formally reprimanded, with written warnings placed in their respective personnel files.
2. Terminal manager continues to receive management training.
3. New Standards of Operation put into place (copy of written procedures enclosed).
4. Civil penalty has been paid in full.
5. Record of when all hazardous waste enters and leaves facility was forwarded to FDEP monthly.
6. Format of the monthly logs has been modified on several occasions at FDEP request, in order to be more easily read.
7. FCI has participated in FDEP's self-audit program, and has notified FDEP of any violations that have occurred during this period.
8. Additional personnel have been added to assist with administrative procedures and documentation.
9. Computer system upgraded, with links to main terminal in New Jersey and all other FCI locations.
10. Satellite communications with all trucks.
11. Quarterly reports have been forwarded to FDEP.
12. Assistant terminal manager has been replaced.
13. Secondary containment pad has been tripled in size, in order to assure adequate space for all loaded trucks.
14. Flat bed trailer that served to facilitate transfer of drums between trucks has been replaced with a permanent, canopied, concrete cross bay loading dock in order to reduce congestion, and help ensure safety and environmental compliance.

4th Quarterly report, page 4

15. Additional personnel have been hired in order to reduce workload of managers.
16. FCI has cooperated completely with FDEP's investigation of USDEA practice of using CESQG generator status for hazardous waste materials confiscated during raids of clandestine drug labs.

As you know, FCI is in the business of transporting waste hazardous materials. The entire company, from senior management on down, is committed to ensuring that this transportation is performed safely, and in strict compliance with all applicable requirements. The senior management team has again affirmed this commitment by authorizing large expenditures at the Bartow facility, as a means of helping to ensure compliance and safety, and to improve the basic operations. The principle being, a business that operates safely and efficiently, will by nature, operate in compliance. That level of compliance will continue to be strictly monitored and enforced internally, and we continue to welcome audits by enforcement agencies at any FCI terminals, as well as roadside inspections of our vehicles.

Very Truly Yours,  
Freehold Cartage, Inc.

## BARTOW 10 DAY STORAGE & TRANSFER FACILITY (Hazardous Waste, Used Oil, and Mercury Containing Lamps and Devices)

### STANDARDS OF OPERATION

The purpose of this document is to ensure compliance with the requirements of laws, regulations, permits and other sources of authority for environmental requirements.

#### I. GENERAL

##### A. Employee Training

It is expected that all operational employees of the Bartow facility will handle hazardous waste, therefore, all operational new hires are to receive training prior to working without supervision. This training must include as a minimum the following:

1. Hazard Recognition.
2. Hazard Communication.
3. Emergency Response.
4. Personal Protective Equipment.
5. Fire Extinguisher Use.
6. USDOT Hazardous Material Information System.
7. USEPA/RCRA Manifest System.

FLORIDA DEPARTMENT OF  
ENVIRONMENTAL PROTECTION  
MAR 26 1999  
SOUTHWEST DISTRICT  
TAMPA

#### II. TRANSPORTER REQUIREMENTS

##### A. Acceptance of Hazardous Waste for transportation (non-bulk).

*Prior to accepting containerized hazardous waste for transportation, the driver must assure himself of the following:*

1. Proper permits on board vehicle.
2. Has the generator completed a Uniform Hazardous Waste Manifest for the shipment?
3. Is the manifest properly completed with at least the following:
  - a. Generators' name, USEPA ID Number, mailing address and phone number.
  - b. Unique Document Number.
  - c. Transporters' name and USEPA ID Number. , *phone number*  
(Freehold Cartage, Inc. - NJD 054 126 164)

**FREEHOLD CARTAGE INC.**

- d. TSDf name, USEPA ID Number, address and telephone number.
  - e. Proper USDOT Basic Description, including Name of Material, Hazard Class, UN/NA ID Number and Packing Group.
  - f. Number & Type of Containers.
  - g. Total Quantity of waste.
  - h. Unit of Measure.
  - i. EPA waste code.
  - j. 24 hour emergency telephone number.
  - k. Generators' printed or typed name, original signature, and date.
4. Land Disposal Restriction Notice (Land Ban) attached, if required.
  5. Verify that each container is a proper DOT shipping container, compatible with the described waste, and in good condition with no leaks, dents, or old markings.
  6. Verify each container has been properly marked and labeled with the following:
    - a. Correct USDOT Hazard Class Label(s).
    - b. USEPA Hazardous Waste Label, to include generators' Name, Address, USEPA ID Number, name of material, accumulation date, and document #.
  7. Check the USDOT Loading & Storage Guide for material segregation requirements.
  8. Prior to leaving generator site, give generator proper copies of manifest, ensure the vehicle is properly placarded, manifest and emergency response information are properly stored in cab.

**B. Acceptance of Hazardous Waste for transportation (cargo tank).**

*Prior to beginning loading of bulk liquids for transportation to disposal facility, the driver must assure himself of the following:*

1. Proper permits on board vehicle.
2. Cargo tank has current Test/Inspection markings.
3. Cargo tank is clean, and compatible with material to be loaded.
4. Cargo tank has capacity to hold material without spillage or overweight.
5. Cargo hoses are clean and in good condition with good gaskets and fittings proper for material to be loaded.
6. Grounding and bonding connections, if required.

*After completion of bulk liquids loading, the driver must ensure the following:*

7. Accurate determination of quantity loaded.
8. All cargo tank openings are closed and secured.
9. No leakage or spillage.
10. All hoses properly drained and stowed.
11. Grounding and bonding device(s) disconnected.

12. Obtain properly completed and signed Uniform Hazardous Waste Manifest from generator, as above, leaving proper copies with generator.
13. Affix placards and UN/NA ID Number in accordance with shipping description
14. Manifest & Emergency Response information properly stored in cab.

**C. Delivery of Hazardous Waste to Designated Disposal Facility, or subsequent transporter (non-bulk).**

*Upon delivery of hazardous waste to a TSDF, or subsequent transporter, the driver must, at a minimum, ensure the following:*

1. All containers listed on the manifest have been accounted for and accepted by the facility.
2. There has been no spillage or leakage within the vehicle.
3. Any discrepancies have been resolved.
4. Agent for the disposal facility, or subsequent transporter has certified acceptance with his printed or typed name, original signature and date on the manifest.
5. Obtain Transporters' copy of the signed manifest.
6. Placards on the transport vehicle have been adjusted for any remaining materials on the vehicle, or have been removed if empty.

**D. Delivery of Hazardous Waste to Designated Disposal Facility, or subsequent transporter (bulk liquids).**

*Upon delivery of bulk liquids hazardous waste to a TSDF, or subsequent transporter, the driver must, at a minimum, ensure the following:*

1. Cargo tank is completely empty (placards not removed until tank is cleaned and purged).
2. Agent for the disposal facility, or subsequent transporter has certified acceptance of the waste with his printed name and original signature and date on the manifest.
3. Obtain Transporters' copy of the signed manifest.

### **III. TRANSFER FACILITY REQUIREMENTS**

**A. Length of Storage.**

1. *Hazardous waste MAY NOT be stored in excess of 10 days.*

## **B. General Facility Standards.**

At **NO TIME** is hazardous waste to be stored off the secondary containment pad. *This includes VEHICLES that CONTAIN hazardous waste! They MAY NOT be parked off the containment pad for even a short period!*

1. The facility is required to be manned at all times when hazardous waste is present.
2. During Off Hours, the facility is patrolled by Bartow Municipal Airport Security.
3. Signs that are capable of being read from at least 25 ft. must be posted to warn unauthorized personnel away.
4. A written Facility Inspection Plan must be in place, with documented weekly inspections.
5. Completed Inspection logs must be maintained for a minimum of 3 years.
6. Any deficiencies discovered during the weekly inspection must be corrected as soon as possible.

## **C. Contingency Plan & Emergency Procedures.**

1. The facility must have a written Contingency Plan, with a copy available for inspection at all times.
2. The plan must include the following, at a minimum:
  - a. Action personnel will take in an emergency.
  - b. Evacuation routes out of the facility.
  - c. Listing of emergency equipment.
  - d. Identification of the Emergency Coordinator.
3. A Copy of the plan must be supplied to:
  - a. Florida Department of Environmental Protection.
  - b. City of Bartow Police Department.
  - c. City of Bartow Fire Department.
  - d. Bartow Municipal Airport Management.

## **D. Preparedness & Prevention.**

1. The facility must be equipped with the following emergency equipment:
  - a. Internal communications or alarm system (easily accessible).
  - b. Telephone or 2-way radio to call emergency response personnel.

- c. Portable fire extinguishers, fire control equipment, spill control equipment, and decontamination equipment.
  - d. This emergency equipment must be tested at a minimum, annually.
2. On a periodic basis, local police, 1st aid, fire dept. and emergency personnel are to be invited to the facility in order to familiarize them with the layout, and to inform them of the hazards they may encounter during an emergency.
3. On a periodic basis, Bartow General Hospital is to be notified of the properties of hazardous waste handled, and the types of injuries that could result from fires, explosions or releases at the facility.
4. The facility must maintain agreements with emergency response contractors and equipment suppliers. Telephone numbers for these contractors must be readily available to the emergency coordinator at all times.
5. The facility must have a written closure plan that satisfies requirements of closure performance, notification, and decontamination standards of 40 CFR 265.111, 265.112(c), 265.114, 265.115.
6. A copy of this plan must be supplied to FLDEP.

#### **E. USE & MANAGEMENT OF CONTAINERS.**

1. All containers of hazardous waste brought into the facility must be in good condition (ie: no leaks, corrosion, or bulging).
2. All containers brought into the facility are to be inspected by the facility manager, or his designee.
3. At a minimum, containers are to be inspected for:
  - a. Container condition.
  - b. Verify piece count against manifest.
  - c. Proper labeling.
  - d. Container destination.
  - e. Compatibility of material with container or liner.
  - f. Proper segregation of hazardous materials of different hazard classes.
4. If a container is found to be leaking, it is to be overpacked, and the overpack container is to be properly labeled.

5. When containers are being consolidated according to destination, consideration is to be given to segregation of different hazard classes in accordance with the Loading & Storage Guide.
6. No containers of hazardous waste are to be opened, handled, or stored in a manner likely to cause the container to leak or rupture.
7. A written log is to be maintained of all hazardous waste that enters or leaves the facility. This log must contain, at a minimum:
  - a. Generators' name.
  - b. Generators' EPA ID No. *IE CESQG without EPA ID#*
  - c. Manifest Document No. *Name + Address*
  - d. Date when the waste enters the facility.
  - e. Vehicle No. bringing the waste in.
  - f. Designated disposal facility.
  - g. Date when the waste leaves the facility.
  - h. Vehicle No. taking the waste out.

#### **F. GENERAL HOUSEKEEPING.**

1. The Transfer Facility is to be maintained in a clean and orderly manner at all times.
2. Secondary containment pad must be cleaned and inspected on a regular basis.
3. Grass may not be allowed to become overgrown.
4. Fencing must be inspected for deterioration or breaks on a regular basis.

David B. Struhs  
Secretary

CERTIFIED MAIL  
RETURN RECEIPT REQUESTED

February 19, 1999

Mr. Thomas J. Blanchet II  
Freehold Cartage Inc.  
P.O. Box 5010  
Freehold, NJ 07728-5010

Re: OGC Case No. 98-0538  
Freehold Cartage Inc.  
FLD 984 187 831, Polk County

Dear Mr. Blanchet:

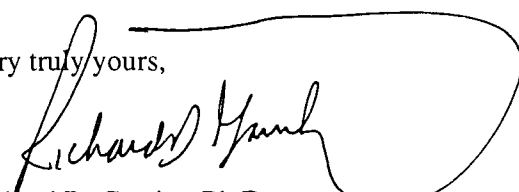

As part of this Consent Order, the Department agreed to Freehold's participation in the Department's Self Audit Policy know as "Incentives for Self-Evaluation by the Regulated Community", DEP 922.

After a through review of the records in this case, the Department has determined that Freehold has failed to exercise due diligence in preventing, detecting, and correcting violations, thus failing to satisfy the Conditions of Section 4. of the Self Audit Policy. In accordance with paragraph 9.c. of Consent Order 98-0538, this letter is to serve as 30 day written notice of the Department's unilateral termination of all of Freehold's benefits under the agreement concerning the self audit policy.

The Department regrets having to take such action in light of indications of some progress that Freehold has made in its efforts to improve compliance. The Department hopes that Freehold will continue to work to improve its internal audit procedures to avoid non-compliance in the future.

If you have any questions, please contact Gilbert Dembeck at (813) 744-6100, extension 399.

Very truly yours,

Richard D. Garrity, Ph.D.  
Director of District Management  
Southwest District

RDG/gtd

RE: OGC Case No. 98-0538

Dear Mr. Dembeck,

Enclosed, please find Freehold Cartage Inc. check No. 41564 in the amount of \$2309.80. This represents the 10th, and last, of 10 equal monthly payments, as settlement of the above referenced case.

Also under the terms of this case, FCI will continue to submit photocopies of our log of all incoming and outgoing hazardous waste for three (3) additional months, with the last submission being in April of 1999. A 4th quarterly report on our efforts to ensure compliance will also be submitted during April of 1999.

As per our telephone discussion, FCI would like to continue to participate in the self-audit program after the terms of this case expire. We will continue our self-inspections, and will forward quarterly reports to your department as a means of reporting our compliance status.

If you should have any questions regarding this matter, please feel free to contact me at (732) 462-1001, ext. 7201.

Very Truly Yours,  
Freehold Cartage, Inc.

W. Barry Olsen  
Safety Director

**RE: OGC Case No. 98-0538  
3rd of 4 Quarterly Reports**

Dear Mr. Dembeck,

In accordance with the terms of the above referenced Consent Order, Freehold Cartage, Inc. (FCI) submits this report on our efforts to exercise due diligence in assuring environmental compliance, including violations discovered, corrective actions taken, and procedural changes to prevent recurrence.

Since our last report, the following changes and improvements have been made at the FCI Bartow facility:

1. Terminal manager has received additional management training
2. Administrative assistant's responsibilities increased
3. Improvements to the billing and payroll systems
4. Improvements to the dispatching system
5. New transfer dock is completed
6. Nearly all trailers now equipped with secondary containment system
7. Monthly self-audit intervals have been lengthened to 8 week intervals

The most recent self-audit was conducted by myself, on 12/15/98, Following is a synopsis of that inspection:

1. No violations of the 10 Day Storage Rule
2. All logs of incoming & outgoing hazardous waste were complete
3. All containers were in proper condition
4. No containers were found to be leaking
5. Facility security system was adequate
6. Facility inspection logs were complete

**FREEHOLD CARTAGE INC.**

Page 2

7. No evidence of spillage
8. Required emergency equipment was available
9. Incompatible wastes were segregated
10. All transport vehicles were properly placarded
11. Approximately 30 Uniform Hazardous Waste Manifests were reviewed, with no errors or omissions discovered
12. Two tractors did not have required shovels (corrected 12/15/98)
13. One tractor did not have required mercury spill kit (corrected 12/15/98)

I trust this information meets the department's requirements as relate to reporting on our efforts to exercise due diligence. If you should have any questions, or require any additional information, please feel free to contact me at (732) 462-1001, ext. 7201.

Very Truly Yours,  
Freehold Cartage, Inc.

A handwritten signature in black ink, appearing to read 'W. Barry Olsen'. The signature is fluid and cursive, with a long horizontal stroke extending to the right.

November 4, 1998

Mr. Gilbert Dembeck  
Florida Dept. of Env. Protection  
Southwest District  
3804 Coconut Palm Dr.  
Tampa, FL 33619

Dear Mr. Dembeck,

On 11/02/98, Mr. Mike Pasquerella of our Bartow, FL facility informed you, via telephone, of a violation of FLDEP 10 Day Storage & Transfer requirements that was about to occur at our Bartow, FL facility.

A shipment of hazardous waste arrived at Bartow in the evening of Friday, 10/23/98. The load was scheduled to depart the facility on Saturday, 10/31/98, for delivery in Emelle, AL on Monday, 11/02/98. The driver assigned to remove the load on 10/31/98 became ill that day and was unable to do so. Unfortunately, he did not inform Mr. Pasquerella of this until Sunday afternoon, 11/01/98. With all other equipment engaged in other activities, it appeared that we would not be able to move the load until Tuesday, 11/02/98, eleven days after arrival. However, due to scheduling changes, we were in fact, able to remove the load late in the evening, on Monday, 11/01/98, thus avoiding a violation the 10 day storage rule. The load was then delivered on Wednesday, 11/04/98, without incident.

I apologize for any inconvenience this matter may have caused you department. If you should have any questions regarding this, or any other matter, please feel free to contact me at (732) 462-1001, ext. 7201.

Very Truly Yours,  
Freehold Cartage, Inc.

W. Barry Olsen  
Safety Director

via Federal Express

cc: M. Pasquerella

# HAZARDOUS WASTE MANIFEST

(As Required By The Alabama Department of Environmental Management)

Please print or type. (Form designed for use on elka (12-pitch) typewriter.)

98718

Form Approved, OMB No. 2050-0039, Expires 9-30-91

<b>UNIFORM HAZARDOUS WASTE MANIFEST</b>		1. Generator's US EPA ID No. FL25700244021		2. Page 1 of 1		Information in the shaded areas is not required by Federal law.	
3. Generator's Name and Mailing Address USAF-CCAS Launch Complex 15 1224 Jupiter Street Patrick AFB, FL 32925		6. US EPA ID Number NJ054126164		CWM Number 865218		205-652-3721	
4. Generator's Phone (407) 494-4721		7. Transporter 1 Company Name Freehold Cartage, Inc.		8. US EPA ID Number			
5. Transporter 1 Company Name Freehold Cartage, Inc.		9. Designated Facility Name and Site Address CHEMICAL WASTE MANAGEMENT, INC. Emelle Facility Alabama Highway 17 at Mile Marker 163 Emelle, Alabama 35469		10. US EPA ID Number AL0000622464

**RE: OGC Case No. 98-0538  
2nd of 4 Quarterly Reports**

Dear Mr. Dembeck,

In accordance with the terms of the above referenced Consent Order, Freehold Cartage, Inc. (FCI) submits this report on our efforts to exercise due diligence in assuring environmental compliance, including violations discovered, corrective actions taken, and procedural changes to prevent recurrence.

Since our last report, the following changes and improvements have been made at the FCI Bartow facility:

1. Terminal manager's responsibilities redefined.
2. The log of incoming & outgoing waste has been modified by separating the MCF Systems, Inc. materials from all others.
3. All "nonhazardous" materials have been deleted from the log.
4. Additional training and instruction have been provided to Bartow terminal personnel.
5. A new equipment storage building has been put into place to aid facility housekeeping.
6. A new 40ft. by 12ft. concrete transfer dock has replaced the 30ft. flat trailer previously used, as a means of increasing safety and compliance through ease of inspections, by reducing facility congestion.\*\*
7. New computer system links between Bartow facility and all other FCI facilities as well as Qualcomm satellite tracking and communication system in all trucks.

\*\* All modifications not yet complete, est. completion date: 11/20/98. Modifications not yet completed include transfer dock canopy, dock lighting, new safety shower, new safety equipment storage. Updated Contingency Plan to be forwarded when all work in completed.

**FREEHOLD CARTAGE INC.**

page 2

At my direction, Mr. Scott Johnson, FCI Special Projects Manager has performed three facility inspections at Bartow during the previous three months. The results of these inspections are as follows:

1. No violations of the 10 Day Storage Rule
2. All logs of incoming & outgoing hazardous waste were complete
3. All containers were in proper condition
4. No containers were found to be leaking
5. Facility security system was adequate
6. Facility inspection logs were complete
7. No evidence of spillage
8. Required emergency equipment was available
9. Incompatible wastes were segregated
10. All transport vehicles were properly placarded
11. Approximately 20 Uniform Hazardous Waste Manifests were reviewed at each inspection, with no errors or omissions discovered

I trust this information meets the department's requirements as relate to reporting on our efforts to exercise due diligence. If you should have any questions, or require any additional information, please feel free to contact me at (732) 462-1001, ext. 7201.

Very Truly Yours,  
Freehold Cartage, Inc.

A handwritten signature in black ink, appearing to read 'W. Olsen', with a long horizontal flourish extending to the right.
