TO CLIENT: **Fuels Unlimited**
P.O. Box 259
Sanford, FL 32772

Attn: Ms. Karen Violet

SUBJECT: Application for Permit Renewal – Used Oil Facility
Fuels Unlimited (D.B.A. Oils Unlimited Inc.) U.S. EPA ID# FLR00050369
509 S. French Avenue, Sanford, Florida

Ms. Violet:

Andreyev Engineering, Inc. (AEI) has begun the process of examining your permit documents, and will shortly begin conducting a couple site visits to address all items listed in our April 28, 2017 proposal, to complete the FDEP Used Oil Processing Facility application for renewal, which you stated expires May 17, 2017. However, we will not be able to have our work completed until May 26, 2017.

To ensure that Fuels Unlimited does not go out of compliance, please request that FDEP extend your current Permit by at least two weeks (June 1, 2017 or later if the extension period needs to include time for FDEP to respond).

If you have any questions or comments concerning our work to date, please do not hesitate to contact the undersigned or John Houck at our Sanford office.

Sincerely,

ANDREYEV ENGINEERING, INC.

John C. Houck
Senior Project Geologist
