I.D. Number: 1037P119016 (FLD982133159)
Permit/Certification Number: HO37-171747
Date of Issue:

Expiration Date: February 1, 1995

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations, and restrictions set forth in this permit are "permit conditions" and are binding and enforceable pursuant to the authority of Sections 403.141, 403.727, or 403.859 through 403.861, Florida Statutes. The permittee is hereby placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in Subsections 403.087(6) and 403.722(5), Florida Statutes, the issuance of this permit does not convey any vested rights or any exclusive privileges. Nor does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state or local laws or regulations. This permit does not constitute a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in the permit.
4. This permit conveys no title to land or water, does not constitute state recognition or acknowledgement of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the state. Only the Trustees of the Internal Improvement Trust Fund may express state opinion as to title.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

I.D. Number: 1037P119016 (FLD982133159)
Permit/Certification Number: HO37-171747
Date of Issue:

Expiration Date: February 1, 1995

GENERAL CONDITIONS:

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law, access to the premises, at reasonable times, where the permitted activity is located or conducted for the purpose of:

- a. Having access to and copying any records that must be kept under the conditions of this permit;
- b. Inspecting the facility, equipment, practices, or operations regulated or required under this permit; and,
- c. Sampling or monitoring any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:

- a. A description of and cause of non-compliance; and
- b. The period of noncompliance, including exact dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or revocation of this permit.

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Sections 403.73 and 403.111, Florida Statutes. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.

Expiration Date: February 1, 1995

GENERAL CONDITIONS:

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance, provided however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

11. This permit is transferable only upon Department approval in accordance with Florida Administrative Code Rules 17-4.12 and 17-730.300, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit is required to be kept at the work site of the permitted activity during the entire period of construction or operation.

13. The permittee shall comply with the following:

- a. Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.
- b. The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report or application unless otherwise specified by Department rule.
- c. Records of monitoring information shall include:
 - the date, exact place, and time of sampling or measurement;
 - the person responsible for performing the sampling or measurement;
 - the date(s) analyses were performed;
 - the person responsible for performing the analyses;
 - the analytical techniques or methods used; and
 - the results of such analyses.

Permit/Certification Number: H037-171747
Date of Issue:

Expiration Date: February 1, 1995

GENERAL CONDITIONS:

14. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware that relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

15. The following conditions also shall apply to a hazardous waste facility permit.

a. The following reports shall be submitted to the Department:

(1) Manifest discrepancy report: If a significant discrepancy in a manifest is discovered, the permittee shall attempt to rectify the discrepancy. If not resolved within 15 days after the waste is received, the permittee shall immediately submit a letter report, including a copy of the manifest, to the Department.

(2) Unmanifested waste report: Permittee shall submit an unmanifested waste report to the Department within 15 days of receipt of unmanifested waste.

(3) Annual report: An annual report covering facility activities during the previous calendar year shall be submitted pursuant to Florida Administrative Code Rule 17-30.

b. Notification of any noncompliance which may endanger health or the environment, including the release of any hazardous waste that may endanger public drinking water supplies, or the occurrence of a fire or explosion from the facility which could threaten the environment or human health outside the facility, shall be reported verbally to the Department within 24 hours and a written report shall be provided within 5 days. The verbal report shall include the name, address, I.D. number and telephone number of the facility, its owner or operator, the name and quantity of materials involved, the extent of injuries, an assessment of actual or potential hazards, and the estimated quantity and disposition of recovered material. The written submission shall contain:

Permit/Certification Number: HO37-171747
Date of Issue:

Expiration Date: February 1, 1995

GENERAL CONDITIONS:

- (1) A description and cause of noncompliance.
 - (2) If not corrected, the expected time of correction, and the steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance.
- c. Reports of compliance or noncompliance with, or any progress reports on, requirements contained in any compliance schedule shall be submitted no later than 14 days after each schedule date.
 - d. All reports or information required by the Department by a hazardous waste permittee shall be signed by a person authorized to sign a permit application.

SPECIFIC CONDITIONS:

16. The permittee shall, in order to satisfy the requirements of 40 CFR 264.12, notify the Department in writing four weeks prior to receipt of hazardous waste from a foreign source.

17. The permit allows the permittee to store only those wastes specified in Attachment I.D.2. of the application at the facility. Prior to acceptance of new hazardous wastes, the permittee shall submit to the Department, for approval, waste analysis of the proposed new waste stream. This analysis must also be incorporated in the general waste analysis plan and retained on-site.
40 CFR 264.13

18. The permittee shall, in order to satisfy 40 CFR 264.15, inspect the facility operating, emergency and safety equipment in accordance with the schedule approved in Attachment I.E.4. of the application. Changes, additions or deletions to the schedule must be approved in writing by the Department. The schedule must be maintained as part of the operating record at the facility.

19. Facility personnel must successfully complete the approved training program specified in Attachment I.E.5. of the application within six (6) months of employment or assignment to a facility or a new position at the facility. Verification of this training must be kept with the personnel training records and maintained on-site. Personnel shall not work unsupervised until training has been completed. 40 CFR 264.16

20. The contingency plan must be amended and distributed to the appropriate agencies if:

SPECIFIC CONDITIONS:

- A. The facility permit is revised.
 - B. The plan fails in an emergency.
 - C. The facility changes in its design, construction, operation, maintenance or other circumstances in a way that increases the potential for fires, explosions or release of hazardous waste or hazardous waste constituents, or changes the response necessary in an emergency.
 - D. The list of emergency coordinators changes.
 - E. The list of emergency equipment changes. (40 CFR 264.54)
21. The permittee shall follow the emergency procedures specified in 40 CFR 264.56 and approved in Attachment I.E.2. of the application. The permittee shall give proper notification if an emergency situation arises and within 15 days must submit to the Department a written report which includes all information required in 40 CFR 264.56(j).
22. The permittee shall comply with the manifest requirements indicated in 40 CFR 264.71.
23. The permittee, to comply with the requirements of 40 CFR 264.73, shall keep a written operating record at the facility which includes:
- A. The description and quantity of each hazardous waste received.
 - B. The location of each hazardous waste within the facility and the quantity of waste at each location.
 - C. The results of the waste analysis.
 - D. The date on which wastes were transported off-site.
 - E. A summary report and details of incidents that require implementation of the contingency plan.
 - F. The required copies of manifests.
 - G. Copy of all reclamation agreements with 100-1000 kg/mo generators.
 - H. The results of inspections (for three years).
 - I. Closure plan and cost estimates.
 - J. Annual certification of waste minimization.

SPECIFIC CONDITIONS:

These records must be maintained at the facility until completion and certification of closure. 40 CFR 264.73

24. The permittee shall apply for a closure permit at least 180 days prior to beginning closure at the facility. FAC Rule 17²/₇30.260

25. Storage containers must conform to DOT specifications as shown in Exhibits I.E.3-1 through I.E.3-46 of the application, and be managed in accordance with the approved operational plan. Containers shall be kept closed except when adding or removing waste and be handled in a manner that will not allow the containers to rupture or leak. If a container holding hazardous waste is not in good condition, or begins to leak, the waste shall be transferred to another container in good condition. 40 CFR 264.171, 40 CFR 264.173

26. The permittee shall inspect the container storage area in accordance with the schedule and procedures approved in Attachment I.E.4. of the application. 40 CFR 264.174

27. Spilled or leaked waste and accumulated precipitation must be removed from the collection area, analyzed and disposed of in accordance with Attachment I.E.2. of the application. 40 CFR 264.175

28. Incompatible waste shall not be stored in containers or placed in unwashed containers that have previously held an incompatible waste. 40 CFR 264.177

29. The permittee must maintain aisle space to allow the unobstructed movement of personnel, fire protection equipment and spill control equipment in the container storage area. 40 CFR 264.35

30. The permittee shall, as part of the general operating requirements of 40 CFR 264.194:

A. Not place hazardous wastes in a tank system if the probability exists that this may cause the tank system to fail,

B. Use appropriate controls and practices to prevent spills and overflows, and

C. Comply with the requirements of 40 CFR 264.196 if a leak or spill occurs.

31. The permittee shall inspect the tank system as required by 40 CFR 264.195. These requirements include:
