Good afternoon Kelly,

Thank you for providing me this information. I will review it and let you know if the Department require additional information.
I'm currently traveling and I will get back to the office on April 6. Usually, you will get an exit interview from us within 7 days. The inspection report will take more time to be provided.

Based on the inspection conducted, just one violation was encountered based on the missing EPA ID numbers of the generators in your acceptance and delivery records for used oil transporting. We can discuss later on

Best regards,
Norva

Good afternoon,

Thank you for the visit yesterday. Please see attached SPCC plan for your review. Is there anything else you need?

Also, I didn't get the report from the inspection yesterday, do you have that for me?

Thanks,
Kelly Brandenburg
