Bryan,

Thank you for the notice. No further action is required in response to the exceedance of the 10-day limit based on the proposed changes to your operations. The only thing I would request is that at the end of the next quarter you review the changes to ensure they have had the desired effect.

Please place a copy of this email in your files in case an issue comes up during an inspection regarding these two shipments.

Thank You

John White

Subject: Self Report

Good morning John,

As a follow up to our phone conversation from 4.23.21 I am informing you that the waste associated with these two manifests were held for a period greater than 10 days. Attached are the copies of the two manifests. To prevent reoccurrence the facility is maintaining an electronic log on the company network so that there is greater visibility and monitoring to ensure that waste is not retained for a period greater than 10 days. Additionally, the location reviewed the record keeping requirements with site personnel that are responsible for maintaining the logs and scheduling outbound shipments. Please let me know if you require additional information.
