

Hi Karen,

Here are the monthly inspection sheets for Ft Myers.

Regarding the offloading of the truck every day, is it possible for me to fill out and sign an affidavit for that? The driver does not have access to our computer system. As I explained, he texts me 2 measurements per day. One for when he arrives at work, and one when he offloads the truck.

Please let me know if that will suffice.

I have also included pics of the containment area.

Thank you,
