Ok, I will request those from Steve Collins, our Director of ESOH, who is copied here. The reason is because these two employees are employees dispatched out of Fort Lauderdale, so the training request I originally requested from Steve were for Miami personnel. I am sure he will send the records very soon, I will follow-up with a call to him to make sure he replies to you.

Thanks,

CAUTION - EXTERNAL EMAIL

Kelly,

Thank you for your cooperation with our inspection procedures. I appreciate the documentation you have submitted thus far. After further review of your inspection report, the Department would like to request additional training records to determine compliance.

Many manifests recorded during the inspection and submitted following the inspection have been signed by a Ken Hill and Malcolm Lewis transporting for Cliff Berry. These names were not included in your initial training records submitted, so please provide the hazardous waste management, emergency response, and DOT required training records for these employees.

Thank you once again,

Tarin Tischler
